Gold Discovery In Finland

AUGUST 2026

FIREFOX GOLD

READERS ADVISORY

Disclaimers

This corporate presentation (the “Presentation”) has been prepared by management of Firefox Gold Corp. (the “Corporation”) and is based on public information and the Corporation’s publicly available information. This Presentation is for information purposes only and is being made available solely to enable current and prospective investors to evaluate the securities of the Corporation (the “Securities”). This Presentation does not constitute an offer to sell to any person, or a general offer to the public of, or the general solicitation from the public of offers to subscribe or purchase, any of the Securities. Any unauthorized use of this Presentation is strictly prohibited. Distribution or copying of this Presentation, in whole or in part in any medium, to any person other than the prospective investor is prohibited without the prior written consent of the Corporation. The information contained in these slides, the Presentation made to you verbally and any other information provided to you (in writing or otherwise) in connection with the Corporation and its business (the “Presentation Materials”) may be subject to updating, completion, revision, verification and amendment by the Corporation or by the third parties referenced herein without any notice to you, and which changes may result in material changes to the information presented herein. The Corporation does not assume the obligation to revise or update any information provided to you, in writing or otherwise, except as may be specifically required under applicable securities laws. The Presentation Materials are not intended to provide financial, tax, legal or accounting advice and do not purport to contain all the information that a prospective investor may require. Each prospective investor should perform and rely on its own investigation and analysis of the Corporation and the terms of any offering of the Securities, including the merits and risks involved, and are advised to seek their own professional advice on the legal, financial and taxation consequences of making an investment in the Corporation. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumption and each recipient should satisfy itself in relation to such matters. The Securities are highly speculative.

Certain information contained herein includes market and industry data that has been obtained from or is based upon estimates derived from third party sources, including industry publications, reports and websites. Third party sources generally state that the information contained therein has been obtained from sources believed to be reliable, but there is no assurance or guarantee as to the accuracy or completeness of included data. Although the data is believed to be reliable, neither the Corporation nor its agents have independently verified the accuracy, currency or completeness of any of the information from third party sources referred to in this Presentation or ascertained from the underlying economic assumptions relied upon by such sources. The Corporation and its agents hereby disclaim any responsibility or liability whatsoever in respect of any third party sources of market and industry data or information.

No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon the Presentation Materials, and any representation to the contrary is an offence. Neither the Corporation nor any agent of the Corporation makes any representation or warranty, express or implied, and assumes no responsibility for the accuracy or completeness of the information contained in the Presentation Materials or any other oral or written communication transmitted to prospective investors, and nothing contained in this summary is, or shall be relied upon as, a promise or representation by the Corporation or any agent of the Corporation as to the past or future performance of the Corporation. The Corporation does not undertake to provide any additional further information or to enter into negotiations regarding the investment opportunity to which these Presentation Materials relate. The Corporation retains the right, at any time, to terminate any discussions or negotiations with prospective investors. In the event of such termination the Corporation will not be under any obligation to disclose the reasons for such termination nor will they have any liability to any recipient hereof for any costs whatsoever incurred in the consideration of the information contained in these Presentation Materials.

QUALIFIED PERSON

Scientific and technical information contained in these slides with respect to Firefox has been reviewed and approved by Patrick Highsmith, MSc, CPG, who is a Qualified Person as that term is defined in Canadian National Instrument 43-101. Mr. Highsmith is not independent of Firefox as he owns shares of the Corporation and is its Chairman of the Board.

See additional cautionary language in slide 3 and elsewhere herein.

READERS ADVISORY

Forward Looking Statements

Both these slides and the accompanying oral presentation (if any) may contain certain forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of the Securities Act (Ontario) and the Securities Act, R.S.B.C. Forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variation of such words and phrases or statements that certain actions, events or results “may”, “could”, “should”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Firefox to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

The forward-looking statements in these slides and the oral presentation (if any) may include estimates, forecasts, and statements as to management’s expectations with respect to, among other matters, price and demand outlook for various commodities, expectations of size, amount, grade, metallurgy or other characteristics of deposits being explored for, the ability to obtain additional exploration licenses and/ or retain existing exploration licenses, plans for drilling programs and the timing thereof, the availability of financing, the timing and size of future financings and the price thereof, use of proceeds for various projects, continued working relationship with Magnus Minerals, future liquidity events and the timing thereof, future capitalization of the Corporation, work programs in respect of the Corporation’s properties, 2025 budget amounts and allocations and timing thereof, or expected project result or timelines. These forward-looking statements involve numerous assumptions, risks and uncertainties and actual results may vary materially.

These statements are based on a number of assumptions, including, but not limited to, assumptions regarding general business and economic conditions, interest rates, the supply and demand for, inventories of, and the level and volatility of prices of gold, copper, nickel and other primary metals and minerals explored for by Firefox, Firefox’s costs of exploration, as well as those of its competitors, ability to obtain licenses, access to equipment, fuel and power prices, ability to raise additional funds through equity offerings on terms acceptable to the Corporation, market competition, our ongoing relations with our employees and partners and joint ventures, performance by counterparties of their contractual obligations, and the future operational and financial performance of the Corporation generally.

The foregoing list of assumptions is not exhaustive. Events or circumstances could cause actual results to differ materially. Factors that may cause actual results to vary include, but are not limited to: adverse developments in business and economic conditions in the principal markets for Firefox’s products or proposed future products, in financial markets, or in the supply, demand, and prices for metals and other commodities to be produced, changes in interest and currency exchange rates, changes in the risk appetite of investors in the exploration sector, failure of customers or counterparties to perform their contractual obligations, inaccurate geological or metallurgical assumptions (including with respect to the potential size, grade and recoverability of anticipated future mineral resources), changes in taxation regimes, changes in mineral exploration regimes, legal disputes or unanticipated outcomes of legal proceedings, unanticipated operational difficulties (including failure of plant, equipment or processes to operate in accordance with specifications or expectations, cost escalation, unavailability of materials and equipment, government action or delays in the receipt of permits or government approvals, industrial disturbances or other job action, and unanticipated events related to health, safety and environmental matters), failure to raise additional funds on terms acceptable to the Corporation, or at all, and changes in general economic conditions or conditions in the financial markets.

Certain of these risks are, or may be, described in more detail in the annual financial statements and other publicly available information of the Corporation which is available at www.sedarplus.ca once filed. The forward-looking statements in this Presentation are made as of the date hereof. The Corporation does not assume the obligation to revise or update these forward-looking statements after the date of this document or to revise them to reflect the occurrence of future unanticipated events, except as may be required under applicable securities laws. All forward looking statements contained in this Presentation are expressly qualified by this cautionary statement.

EXPLORING AN EMERGING GOLD BELT IN LAPLAND, FINLAND

FireFox is a major player at a **pre-discovery valuation** in a terrain charged with discovery potential

Leading Landholder in the "Abitibi-Sized" Central Lapland Greenstone Belt, Finland

- Properties adjacent to Agnico Eagle's Ikkari deposit (4M oz) and proximal to the Kittilä mine (9M oz)

Capable operators and local Finnish expertise

- >100 years of collective exploration experience

Focused on Execution at the Mustajärvi Gold Project

- 8 High-grade Discovery Holes with 200 to 400 Gram-Metres (GM) of gold
- 10,000m Step-out + Infill Drill Program Underway

19.9% Fully Diluted Agnico Eagle cornerstone investment

- Earning into a large land package

Compelling valuation at a $C25M cap

- vs. ~$C200M for former Finland discoverer Rupert Resources at a similar stage

Leadership

MANAGEMENT

Carl Löfberg, *MSc* | *Co-founder, CEO & Director*

An economist and precious metals investor, and an expert in hard currency and contrarian business strategy. Has a Master's degree in Industrial Economics and broad experience in business consulting, project management, company start-ups and financing. He has been Managing Director for Magnus Minerals since 2006.

Patrick Highsmith, *MSc, CPG* | *Co-founder & Chairman*

A professional geologist and mining executive with experience on +300 projects around the world for companies such as Newmont, BHP, Rio Tinto, Fortescue Metals Group, Lithium One, Pure Energy Minerals, and others. He has led teams through creative transactions, new discoveries, scoping & prefeasibility studies. A veteran of the capital markets who has worked in Finland since 2005. Until recently, the CEO of Timberline Resources Corp (sold to McEwen Mining in August 2024).

Janice Craig, *CPA, CGA* | *CFO & Corporate Secretary*

Ms Craig has held management roles in several publicly listed mining companies working on gold, tungsten and coal projects in North America, Central America & Europe. She has a strong background in financial reporting, strategic planning, cash management and change management.

Mikko Nenonen, *MSc* | *Exploration Manager*

Strong background in of all aspects of mineral exploration in Finland, particularly in the Lapland region. He has worked on a variety of gold, nickel-copper and vanadium projects for consulting service provider Magnus Minerals Ltd., including two years as a part-time project geologist to FireFox managing many aspects of both the exploration programs and stakeholder engagement. Prior to his work with Magnus, Mikko garnered gold experience exploring the Kittilä region of Lapland with Agnico Eagle Finland.

DIRECTORS & ADVISORS

Andor Lips, Ph.D. | *Director*

Senior (Financial) Advisor to HCF International Advisers Ltd, External Advisor Mineral Exploration to a BCG mining mandate, and member of the Advisory Board to Spectral Industries and MineHub Technologies. Independent Director of Western Tethyan Resources, Verde Magnesium and of the 79th Group. + 25 years in mineral exploration and finance;

Robb McNaughton | *Director*

Over 20 years of international corporate and legal experience. Currently a partner and a leader in the M&A and Capital Markets Group at the Canadian national law firm of Borden Ladner Gervais LLP (BLG). He is also a member of the national advisory committee of the TSX Venture Exchange.

Martin Rip, *CPA, CA* | *Director*

+25 years of experience in industry and public practice providing business advice to a variety of clients. Most recently, he served as CFO of Lumina Metals Corp., Fuerte Metals Corp. and Lumina Gold Corp. Mr. Rip has extensive experience in financial reporting, corporate governance and internal controls compliance for public companies, as well as corporate transactions, such as mergers and acquisitions, public listings, and spin-outs.

John Robins, Geologist | *Technical Advisor*

Geologist, prospector, and entrepreneur with over 35 years of experience in the mining industry. He has been involved in several notable discoveries, including: the 5M oz Coffee Gold deposit, the Three Bluffs gold deposit, and the Great Bear project. Through his entrepreneurship, John has been instrumental in over CDN$3B in M&A activity. Notable recent successes include the sales of Great Bear Resources Ltd. to Kinross Gold Corp. for $1.8B, Great Bear Royalties Corp. to Royal Gold Inc. for $200M, and Kaminak Gold Corp. to Goldcorp for $510M.

Richard Goldfarb, *PhD* | *Technical Advisor*

+40 years of experience as an exploration geologist, researcher and professor. He is a world-renowned expert on the geology of gold deposits with an emphasis on orogenic gold. Dr. Goldfarb's specialty is target generation and optimization in greenfields exploration for orogenic gold. In addition to operating a well-known geological consultancy, he is a Research Professor at the Colorado School of Mines as well as a Fellow and former President of the Society of Economic Geologists.

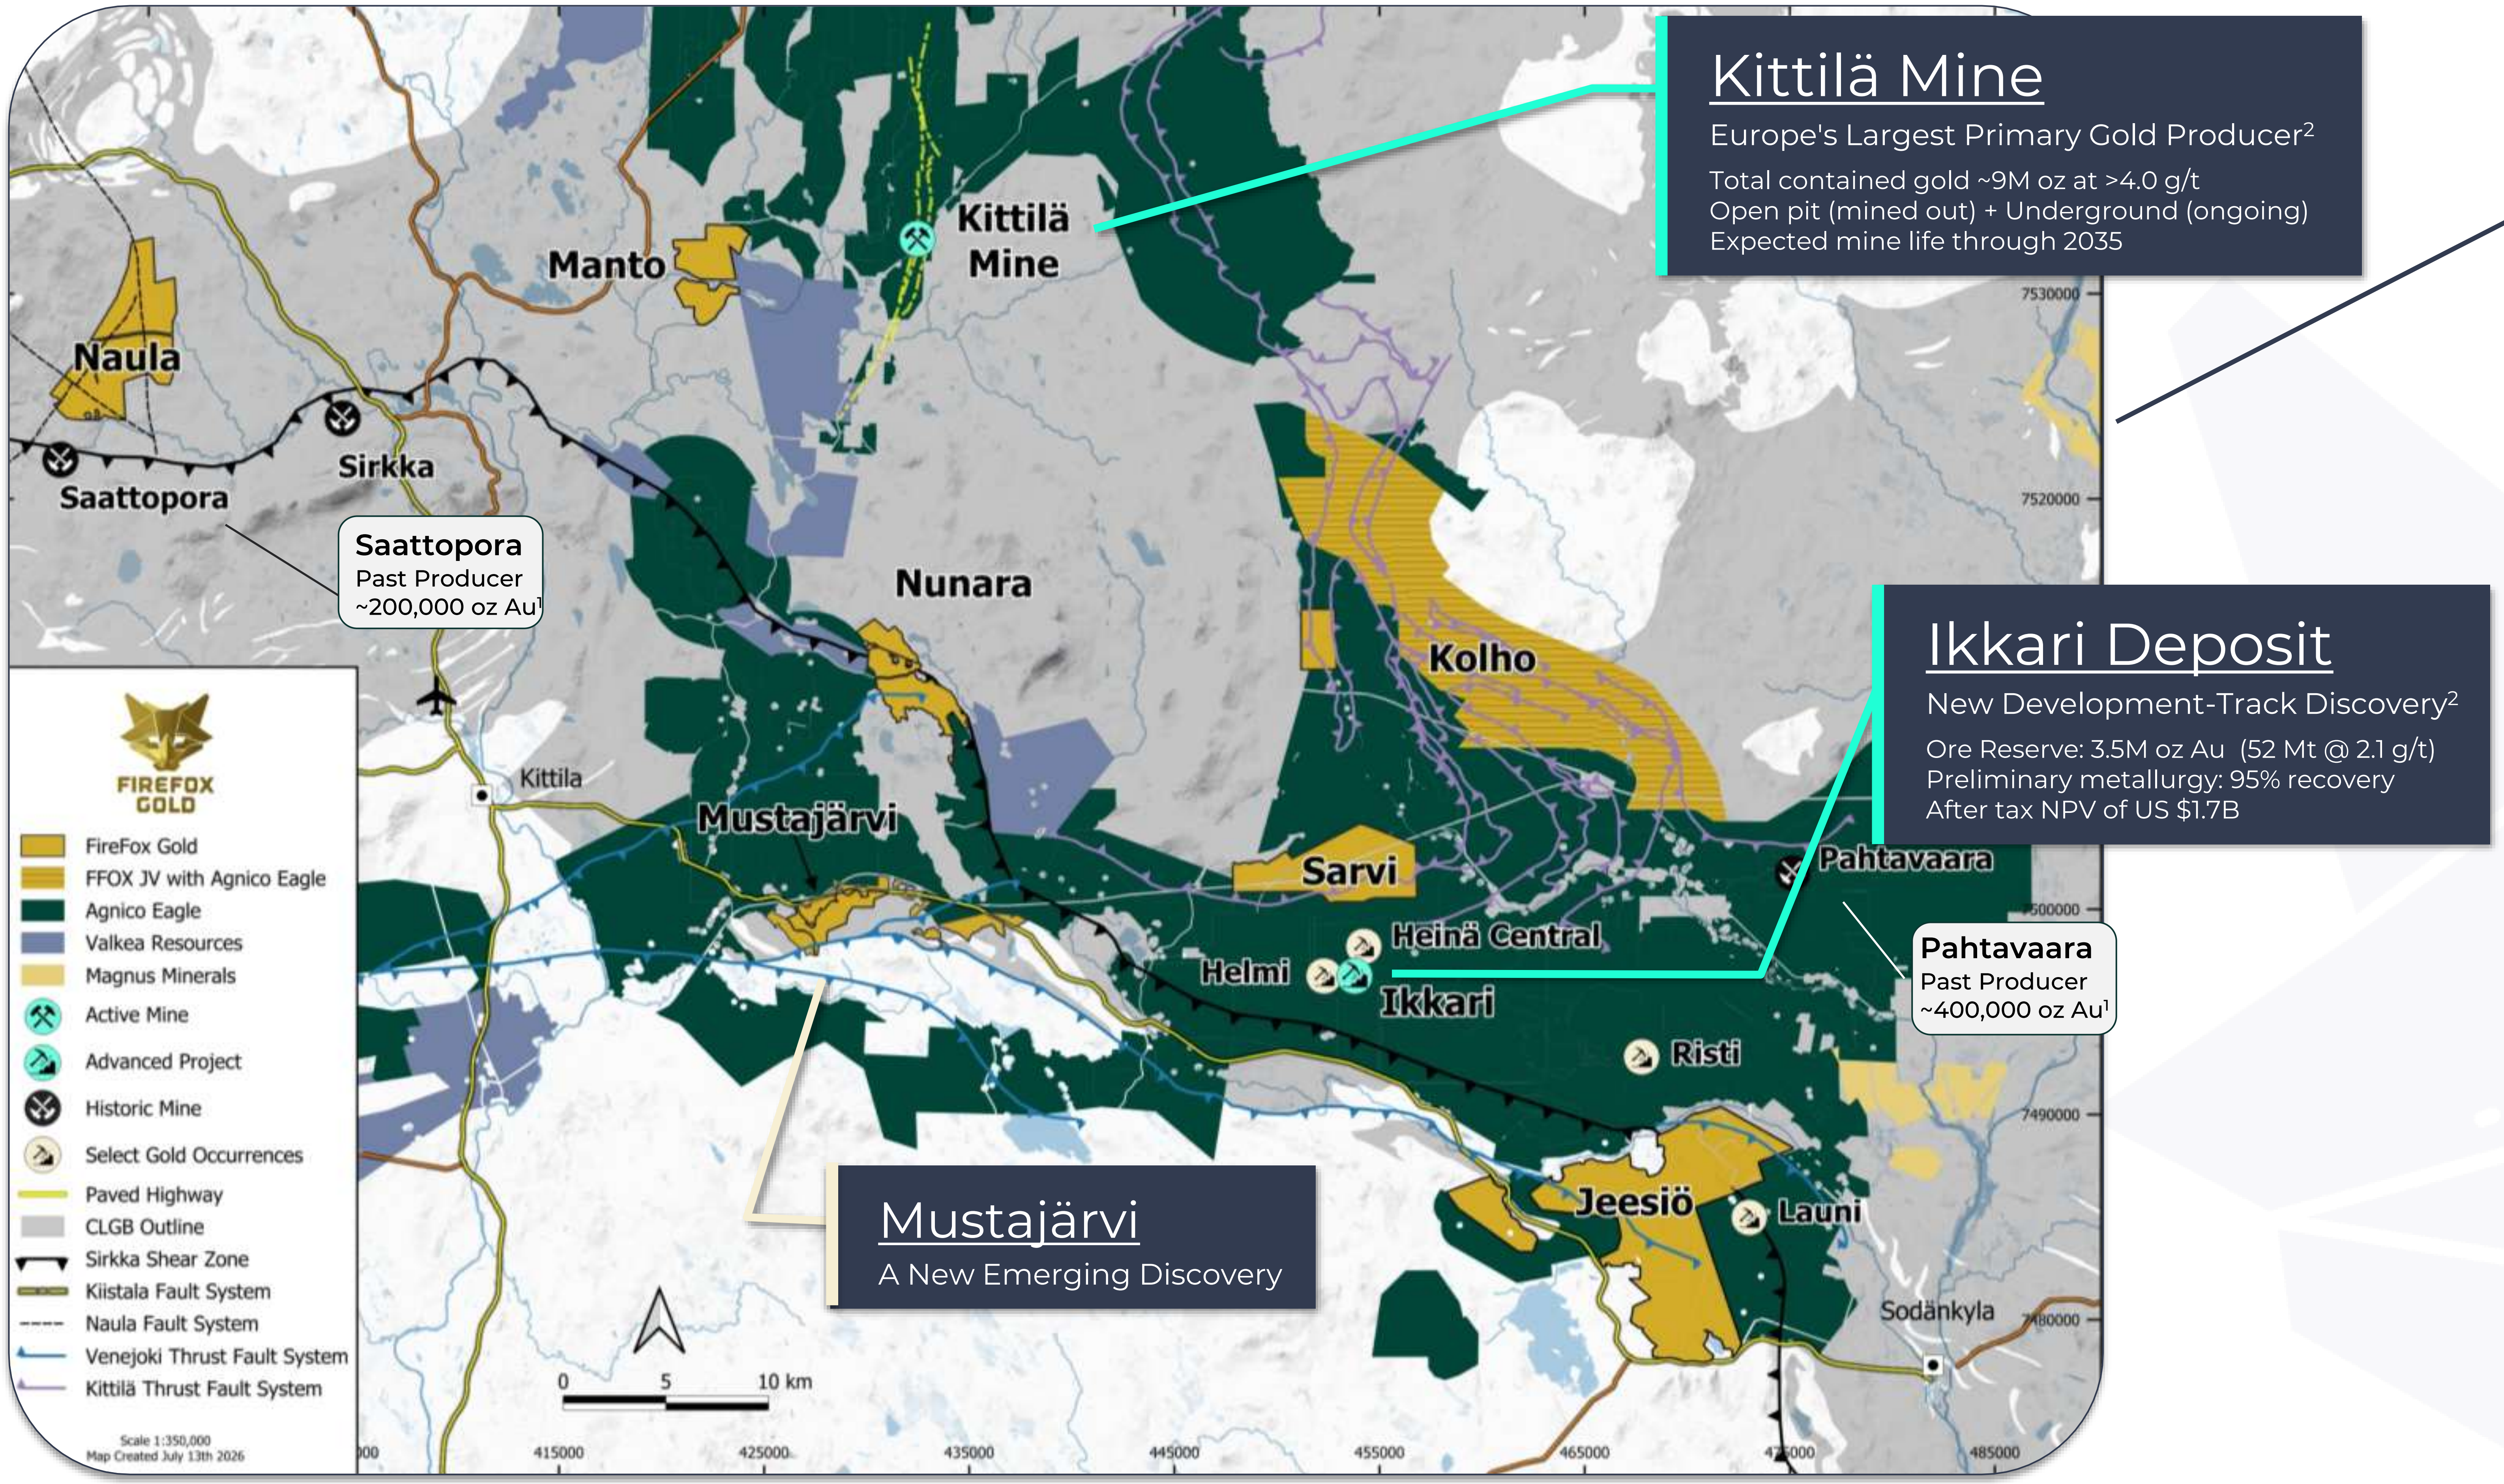
FIREFOX GOLD

EXPLORING FINLAND'S CENTRAL LAPLAND GREENSTONE BELT (CLGB)

A New Gold Discovery Destination

FireFox controls a large 100%-held land package on important trends & near new discoveries in the CLGB

Our projects benefit from extraordinary infrastructure including paved highways and a nearby airport allowing year-round exploration.



FIREFOX GOLD

1. Editor(s): Wolfgang D. Maier, Raimo Lahtinen, Hugh O'Brien, Mineral Deposits of Finland, Elsevier, 2015, https://doi.org/10.1016/B978-0-12-410438-9.12001- 1 .
2. www.agnicoeagle.com

RECENT NEWS – APRIL 20, 2026

Agnico Eagle Consolidating the CLGB

The closing of these major transactions reduced the field of gold explorers in the CLGB to just 4 significant tenement holders

1. Acquisition of Rupert Resources (including the Ikkari deposit) for shares and a contingent cash consideration of **~$2,871 million – ~67% premium** to the closing price of Rupert Shares on 4/17/26
2. Acquisition of Aurion Resources for aggregate cash consideration of **~$481 million - ~46% premium** to the closing price of the Aurion Shares on 4/17/26
3. Acquisition of B2Gold's 70% interest in Fingold (Aurion – B2Gold JV) for **US$325 million in cash**

Agnico Eagle in multi-deal push to consolidate Finland gold assets

FIREFOX GOLD

100% HELD PROJECTS IN THE CENTRAL LAPLAND GREENSTONE BELT (CLGB)

Building a Value Portfolio

MUSTAJÄRVI – New orogenic gold discovery

Multiple high-grade gold zones, including BoT and drill samples with 30 to 100 g/t Au. New 10km drill program in progress to move towards resource delineation, plus BoT sampling & other work underway at new targets

SARVI – Well Situated & Underexplored

8km border & similar geological setting to Ikkari deposit. Multiple anomalies & structural targets. Drill targeting underway for winter 2026 program.

JEESIÖ – Multiple Gold Targets Identified

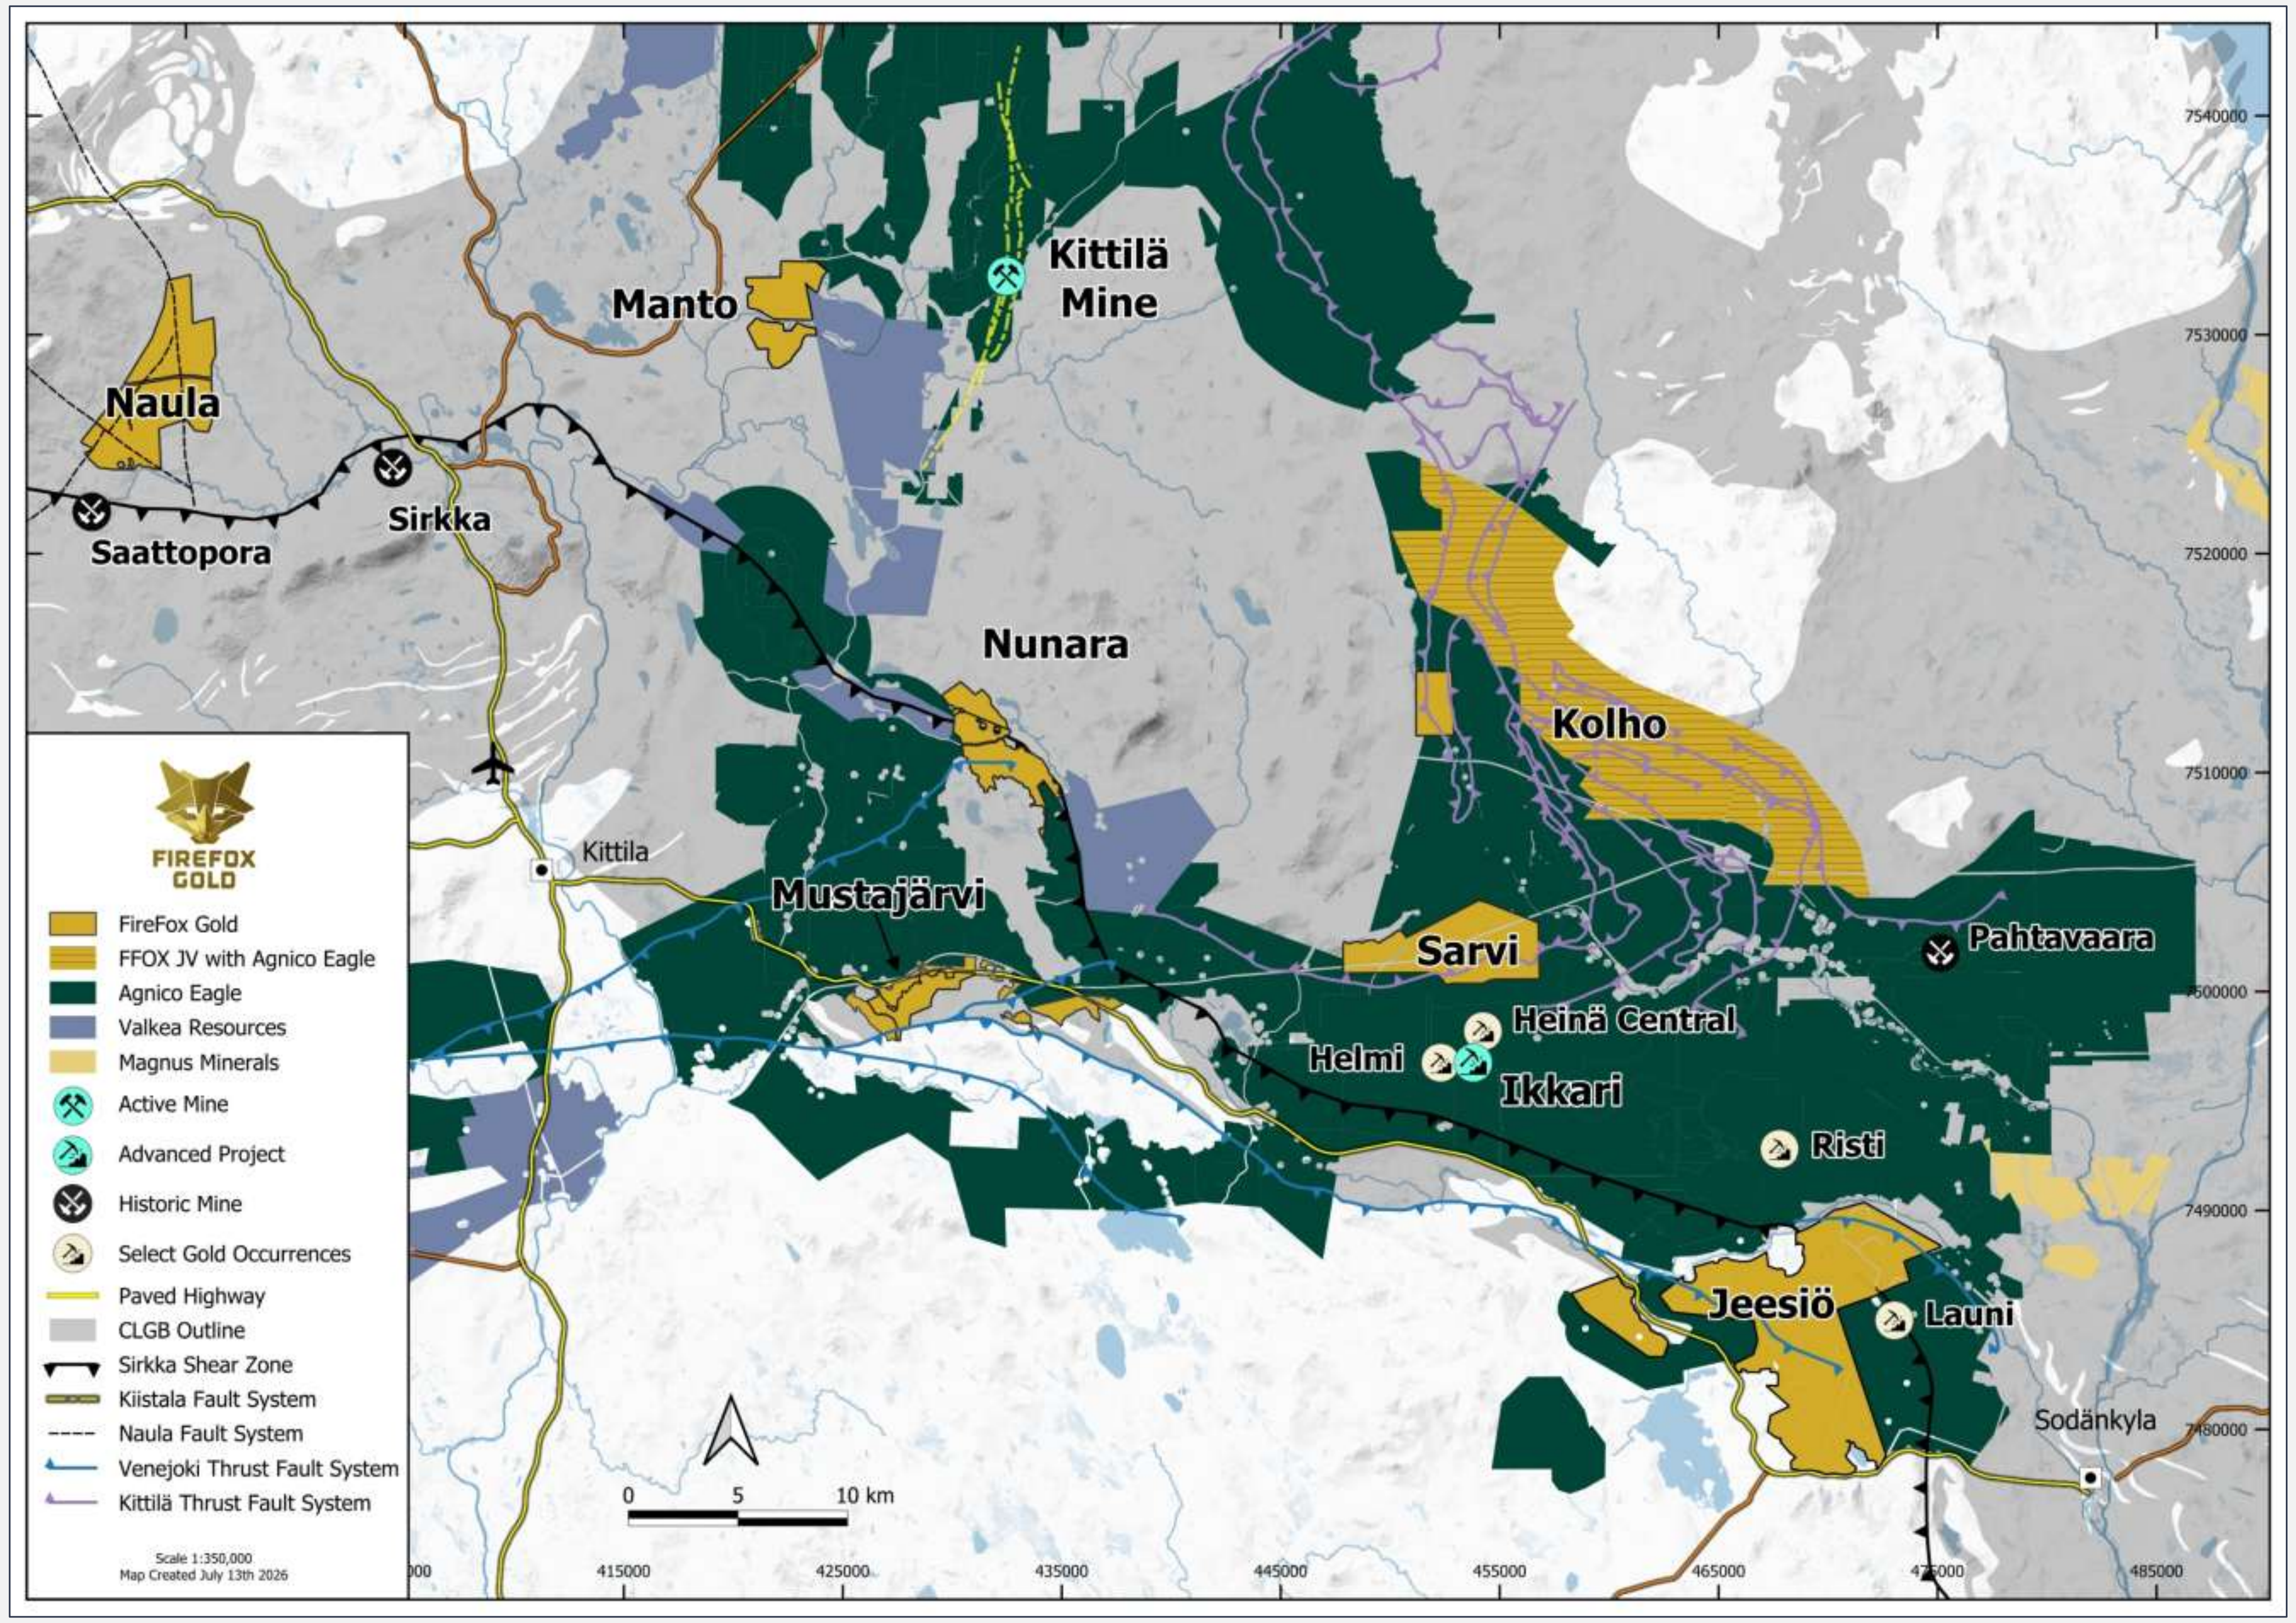
On major district-scale structure with multiple +5 g/t Au rock chips and kilometres of attractive structural targets. New geophysics, BoT and drilling in 2025-2026

NUNARA, NAULA & MANTO – JV Candidates

Early-stage projects associated with major district scale structures. Strong geophysical data sets and attractive early target indications.

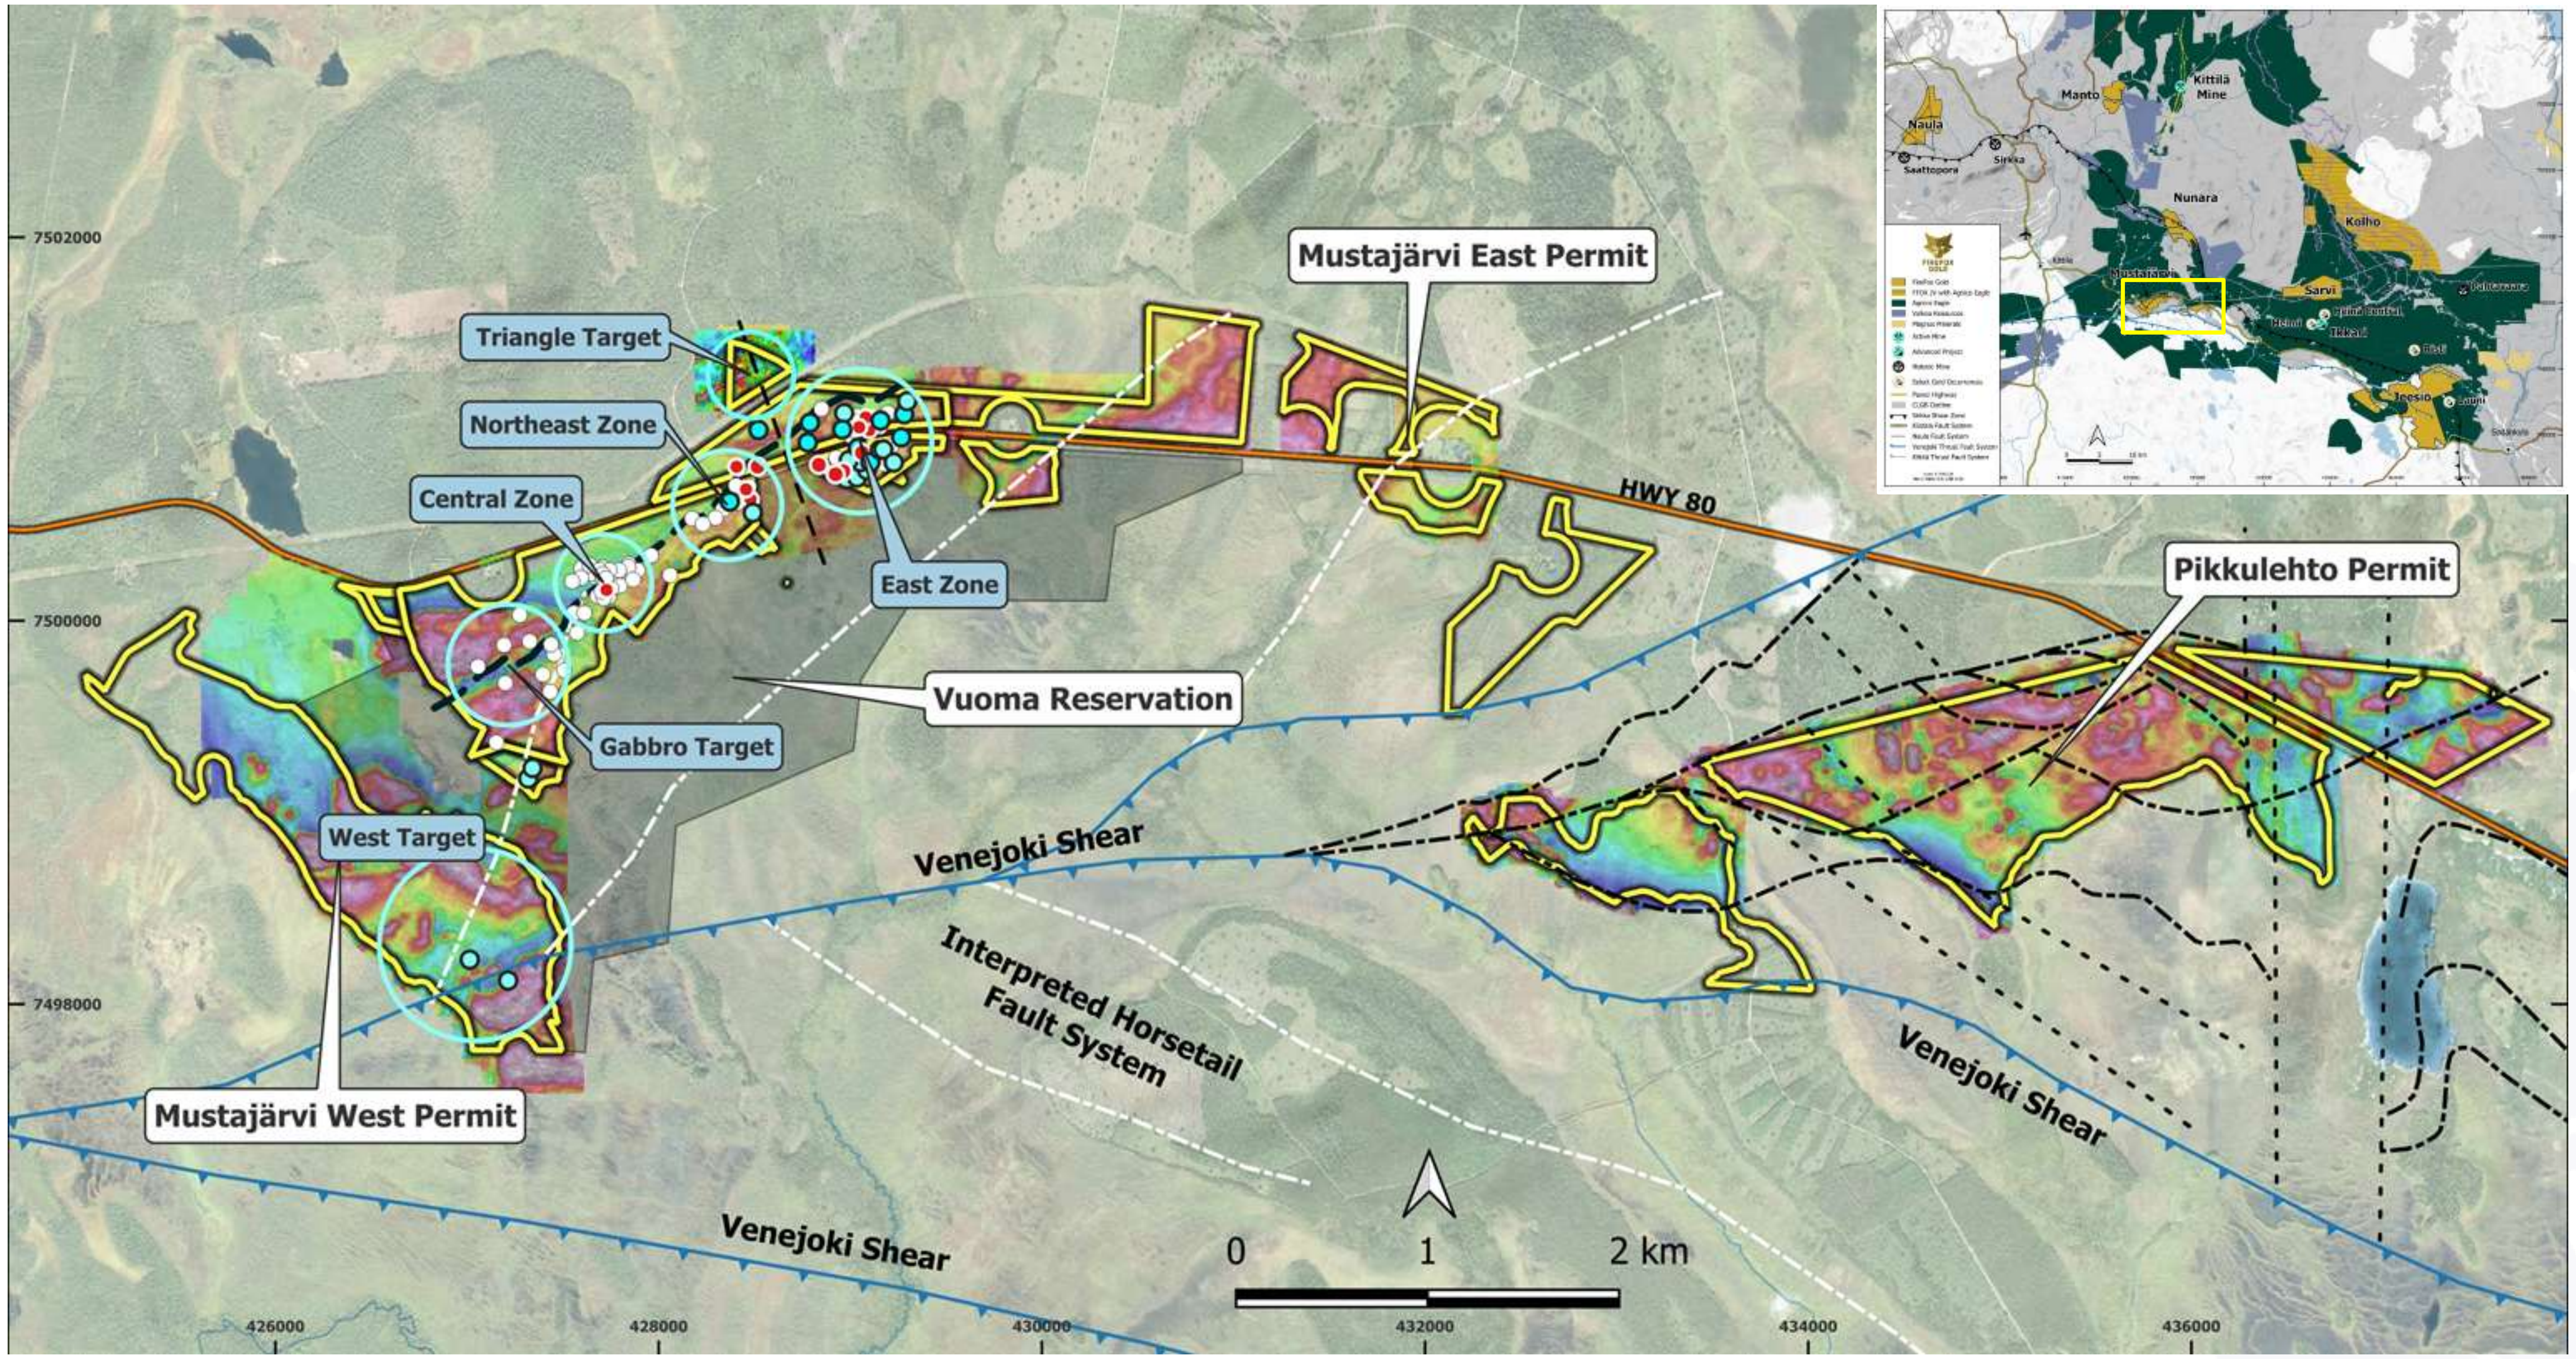
KOLHO – Accretive Earn-In by Agnico Eagle

Huge tenement package spanning major structure and a high-quality geophysical data set. Agnico Eagle exploring steadily since 2024



AN EVOLVING HIGH-GRADE GOLD DISCOVERY

Mustajärvi Gold Project



100%-OWNED TENURE: 7.8 km² of permits covering areas with major shear zones (Venejoki Thrust Zone and Mustajärvi Shear Zone). Paved highway access

OROGENIC DEPOSIT MARKERS: Massive alteration system (kilometres of albite-sericite) with diagnostic geochemical footprint and important structural controls

DISCOVERY: consistent, shallow high-grade orogenic-style gold in multiple zones striking over 2.1 kilometres, from surface to ~250m depth

HIGH-GRADE: multiple high-grade and +100gram-metre gold intervals, such as 13.05 metres averaging 15.04 g/t gold.

GROWTH: Current zones open for expansion in multiple directions; new prospects identified for follow-up

STRATEGY: >13,000m of diamond drill completed in the last year; additional program starting in August, focused on advancing the project towards an initial resource, concurrent with exploration to delineate drill targets in new areas

FIREFOX GOLD

MUSTAJÄRVI GOLD PROJECT

Growing Evidence for an Orogenic Gold Deposit

A Large Orogenic Gold System

- Related to a crustal-scale dextral fault zone
- Major gold zones/targets at dilational jogs
- Significant cross faulting and folding
- Very extensive albite alteration

Geophysical Indicators

- Alteration and mineralization at surface beneath shallow till
- Pervasive association with albite, silica, and pyrite
- Magnetite destruction associated with gold
- High pyrite generates strong EM conductors

Gold Mineralization

- Vein and replacement styles of gold
- Silica-sericite-hematite-pyrite
- Quartz-carbonate-tourmaline pyrite veins
- Low Ag, As, and Cu – high Bi and Te

Structural Control

- Stratabound in metasediments
- Lobes of high-grade gold
- Fault intersections
- Fold hinges (?)

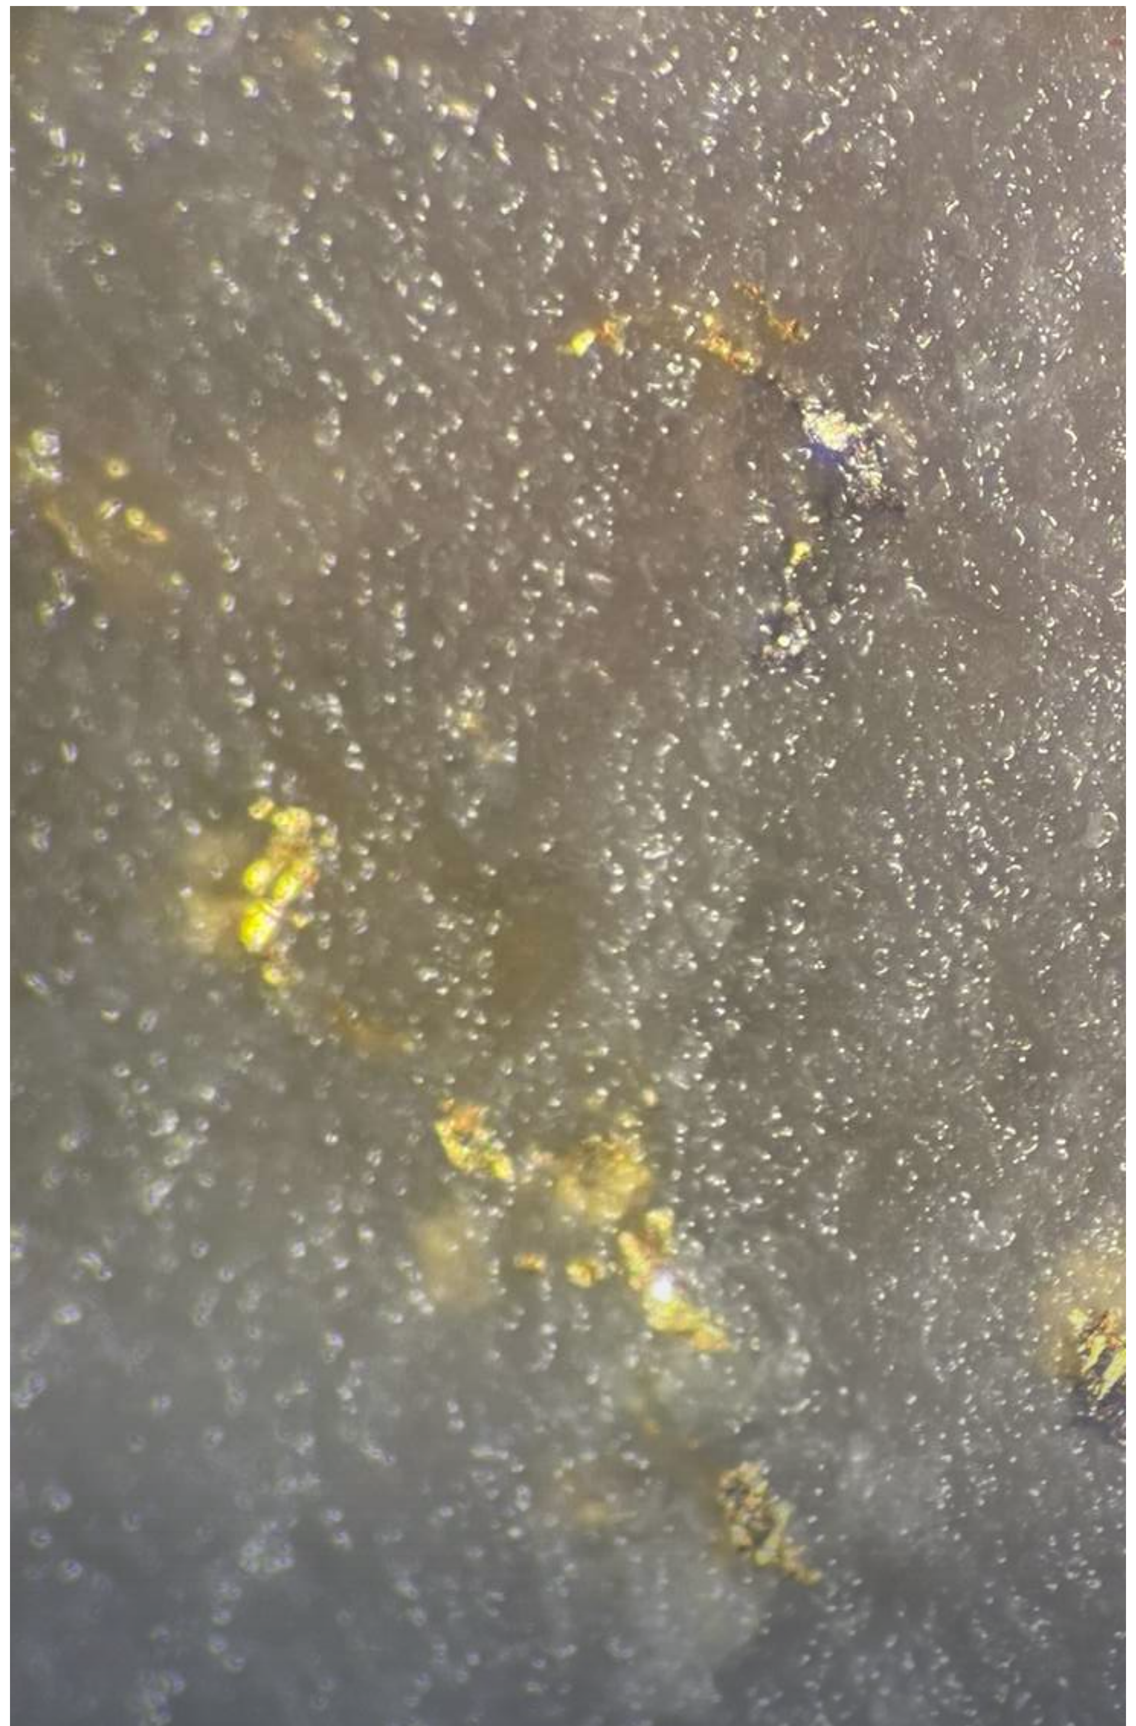
HIGH-GRADE GOLD

15 HOLES with **>100 gm-metres of gold**

2 TRENCHES with **>100 gm-metres of gold**

6 HOLES with **>200 gm-metres of gold**

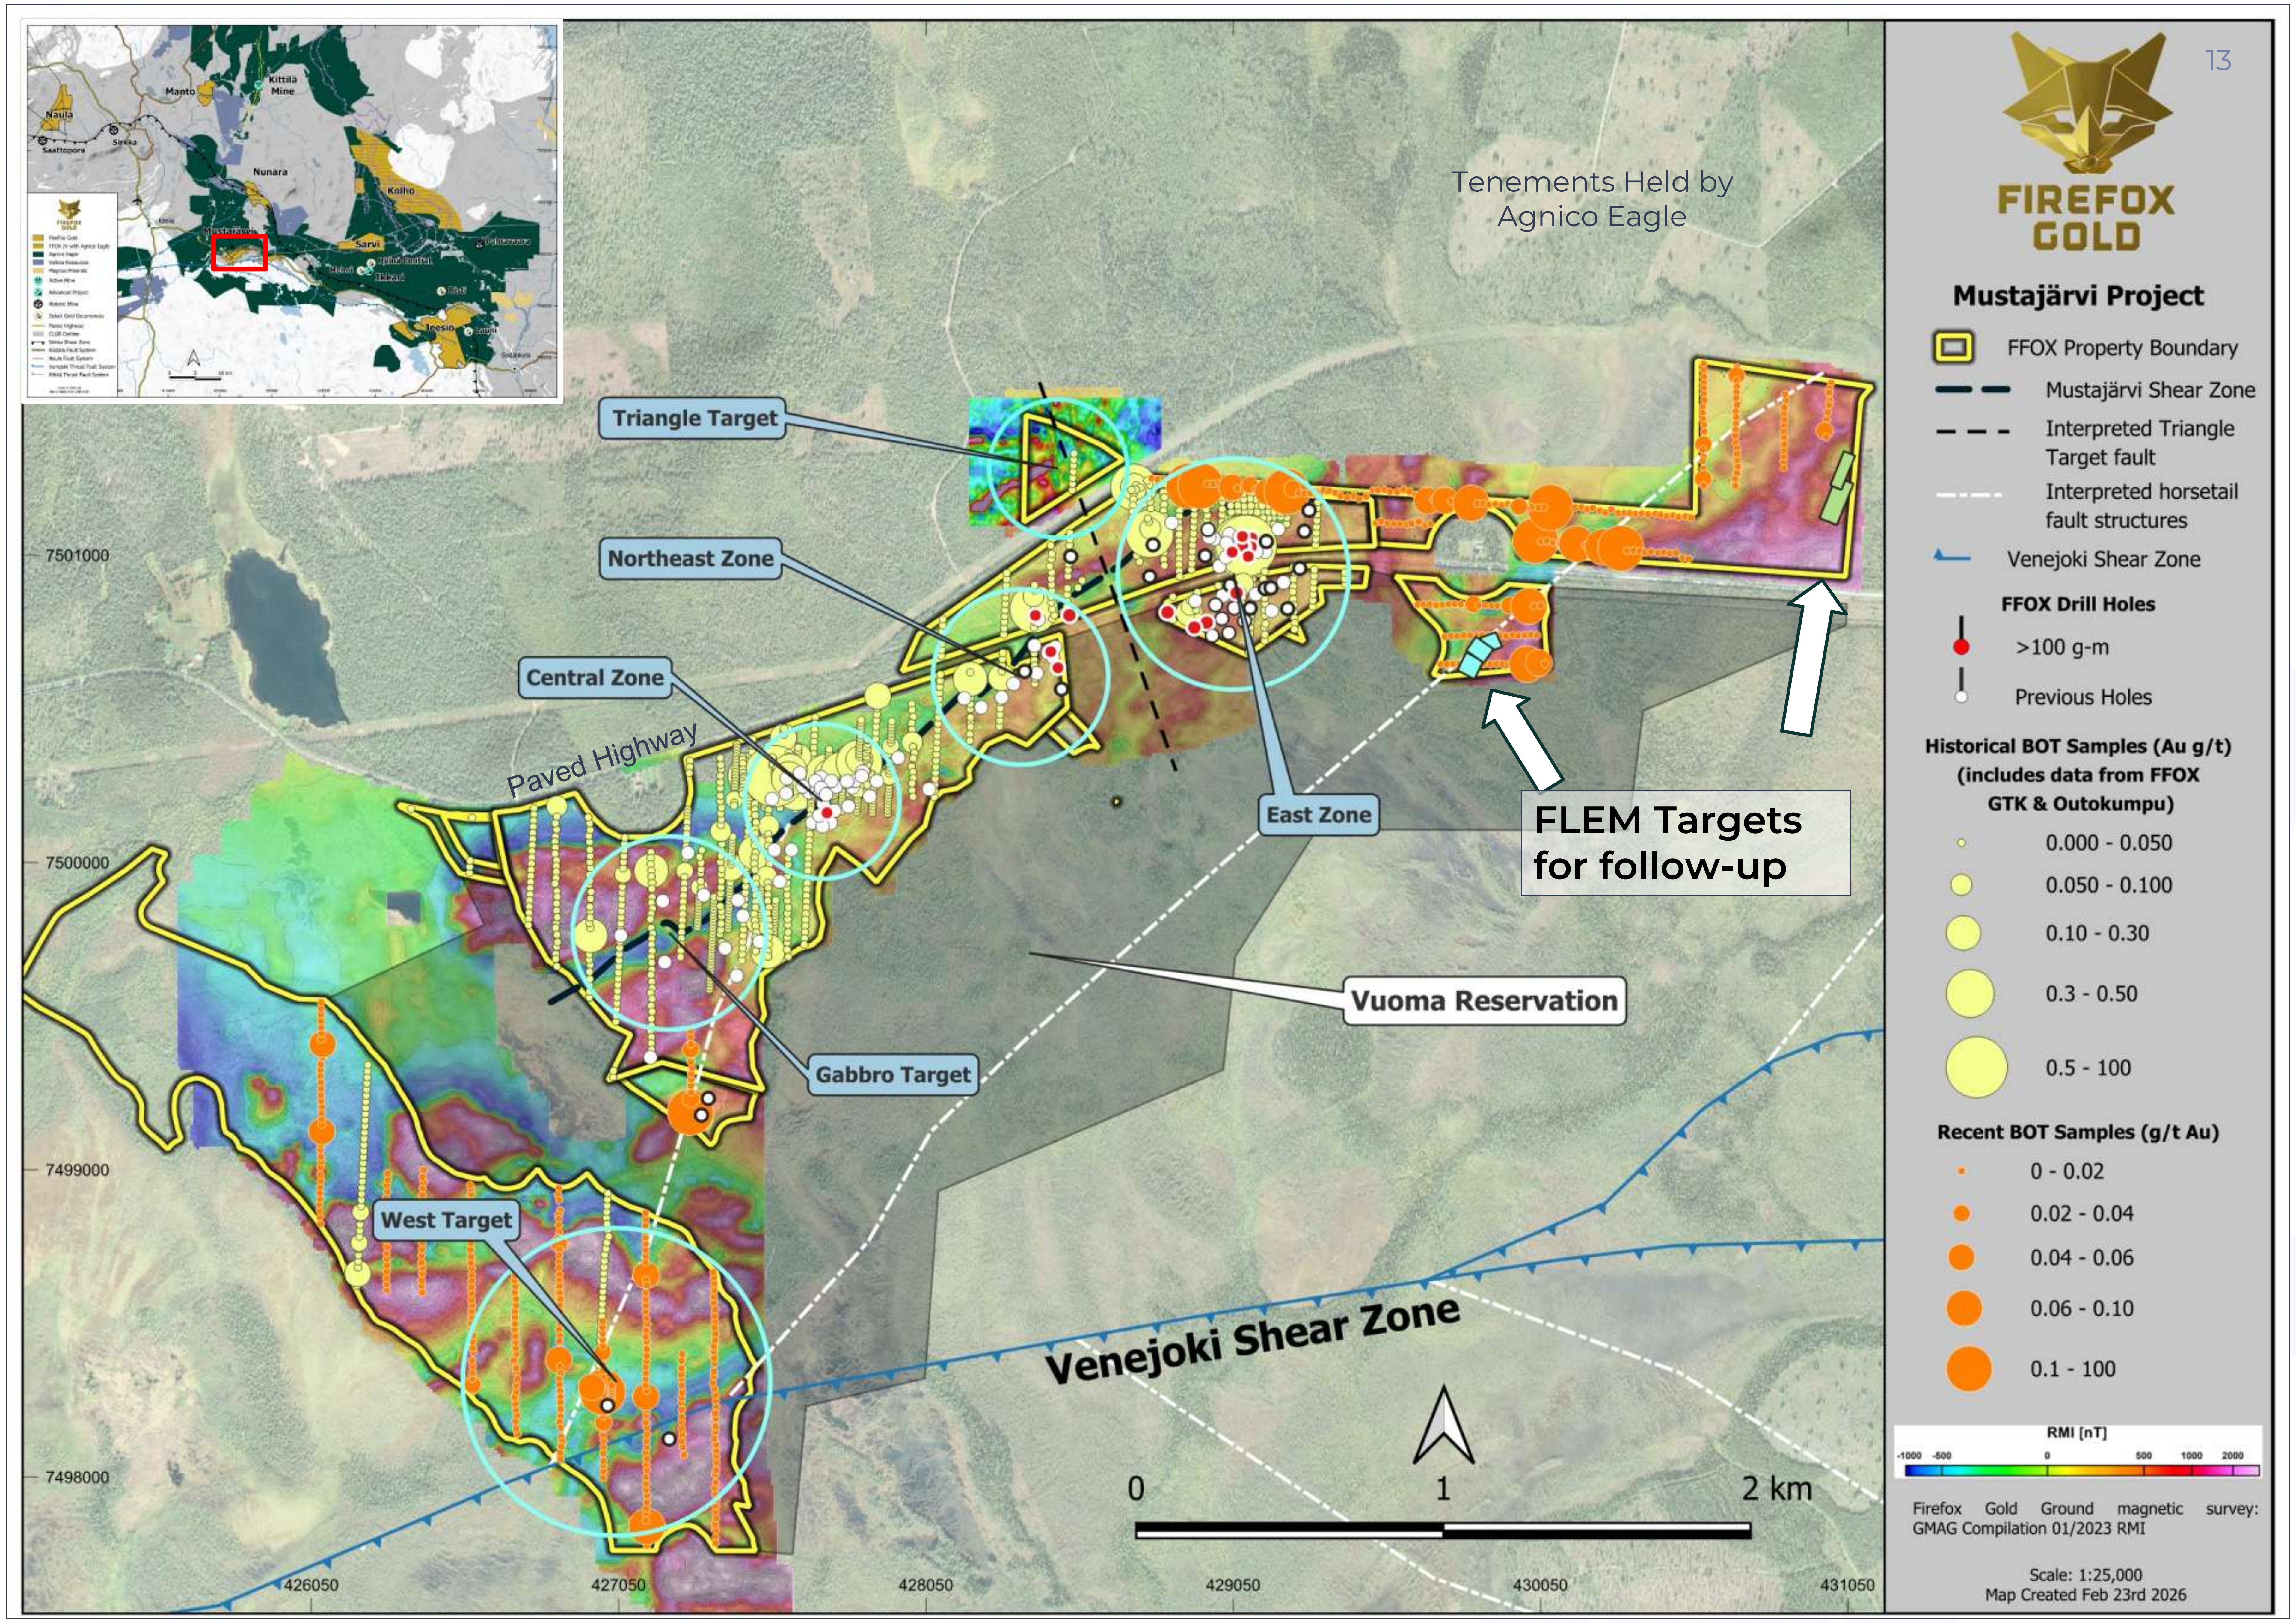
1 TRENCH with **>400 gm-metres of gold**



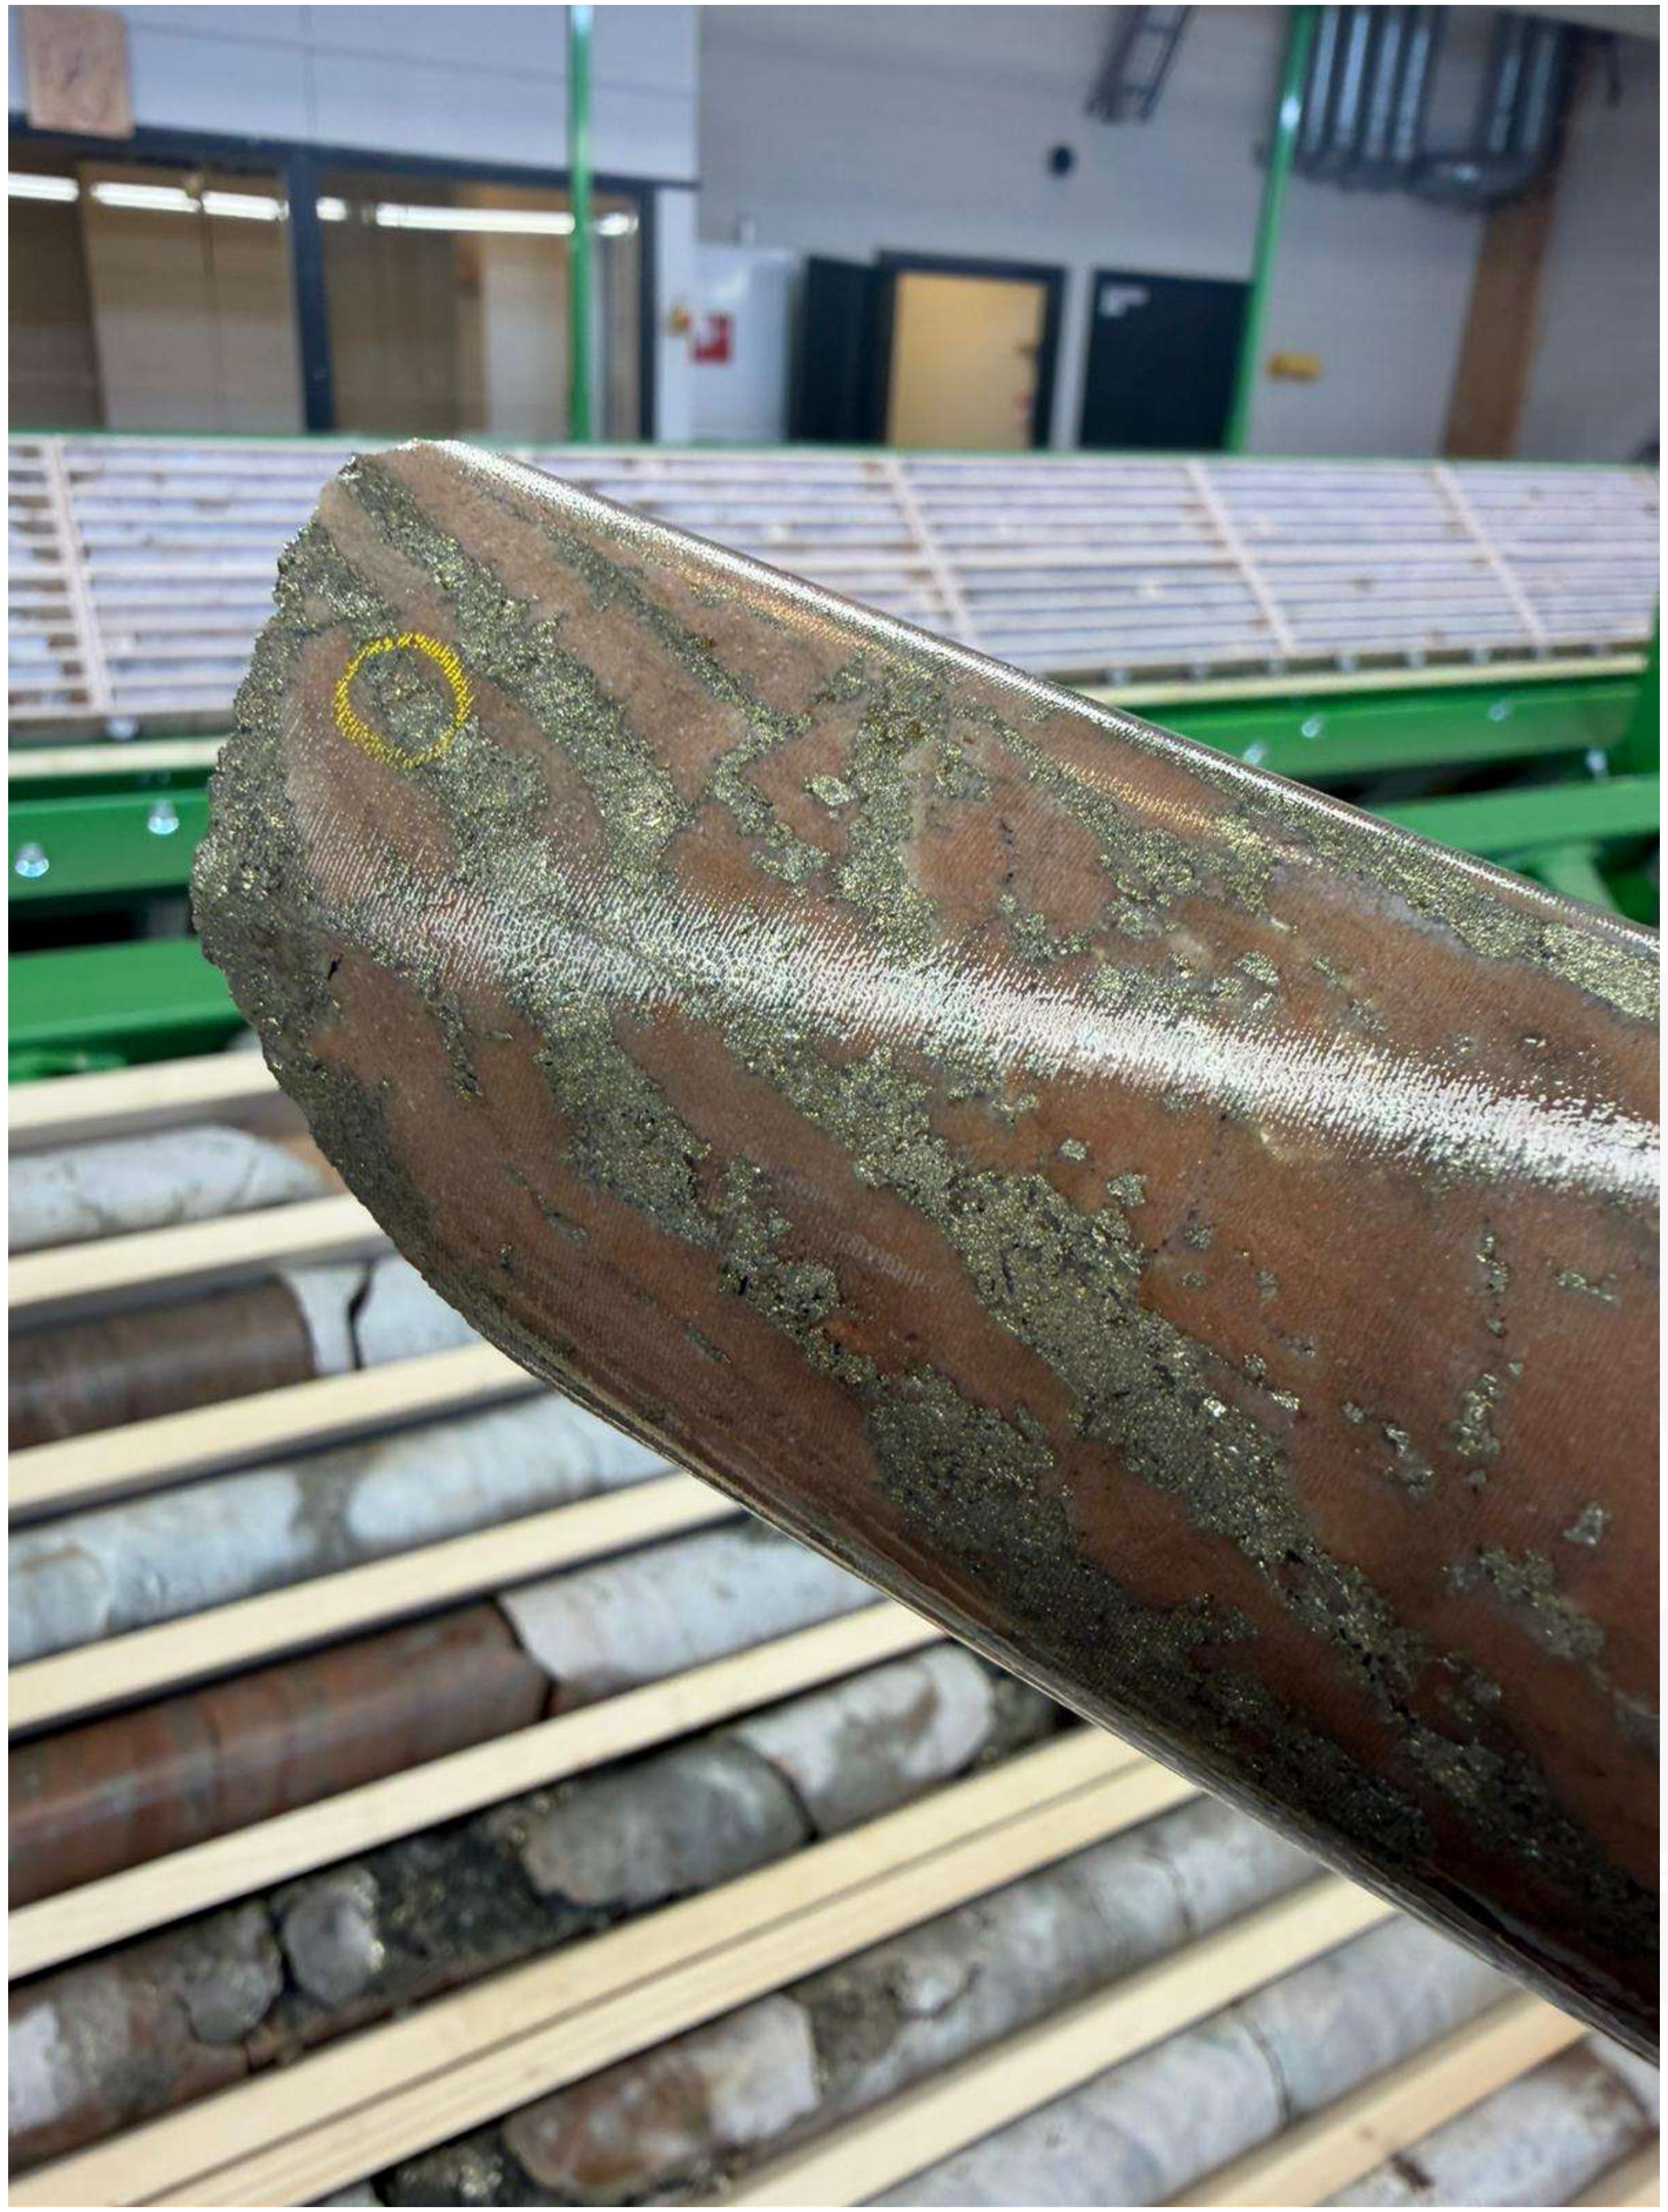
Systematic Exploration Delineating Gold Zones

DISCOVERY IS GROWING

+25,000m of drilling completed to date.

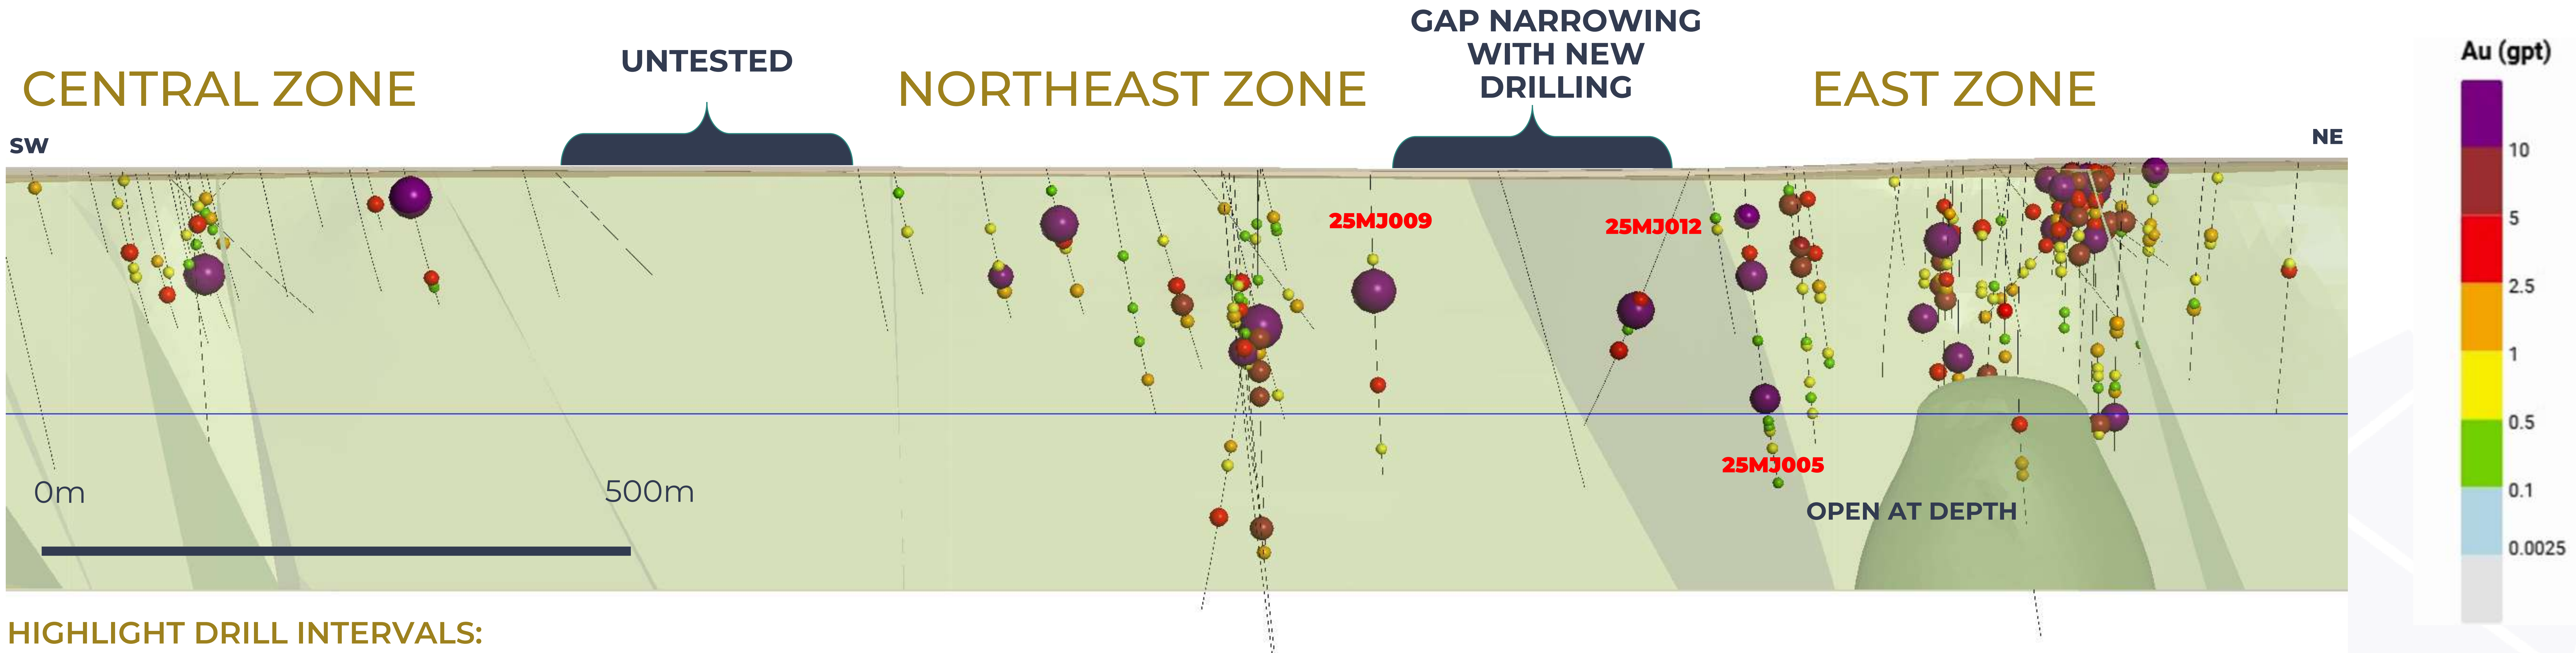


High-grade replacement mineralization: albite-silica-sericite → quartz + pyrite + tourmaline with gold



MUSTAJÄRVI GOLD PROJECT

>2 km of high-grade gold with room to grow



HIGHLIGHT DRILL INTERVALS:

18MJ010: 5m at 18.1 g/t Au from 124m
including 2m at 45.1 g/t Au

21MJ001: 1.35m at 98.9 g/t Au from 184.2m
including 0.65m at 129.5 g/t Au
21MJ010: 16.45m at 7.69 g/t Au from 154.2m
25MJ009: 1.95 m at 54.91 g/t Au from 102.75m
25MJ001: 9.55m at 9.35 g/t Au from 65.45m
20MJ009: 2m at 33 g/t from 65.0m
26MJ005: 11.0m at 4.9 g/t from 301.m

22MJ006: 13.85m at 28.74 g/t Au from 24.15m
25MJ012: 7.6M avg 32.25 Au from 172 m
22MJ021: 15.5m at 13.1 g/t Au from 11m
22MJ024: 13.05m at 15.0 g/t Au from 29.6m
22MJ025: 12.55m at 14.3 g/t Au from 14.3m
25MJ005: 12.4 m avg 13.75 g/t Au from 37.9 m
22MJ022: 7.2m at 16.4 g/t Au from 22.8m

Drilling is believed to be roughly perpendicular to the dip of the mineralization; true widths are not yet known. Widths may include core loss, see original news releases for details.

FIREFOX GOLD

SPOTLIGHT ON A GROWING HIGH-GRADE GOLD ZONE

Northeast to East Zone

Mineralization starts at surface and plunges to the southwest

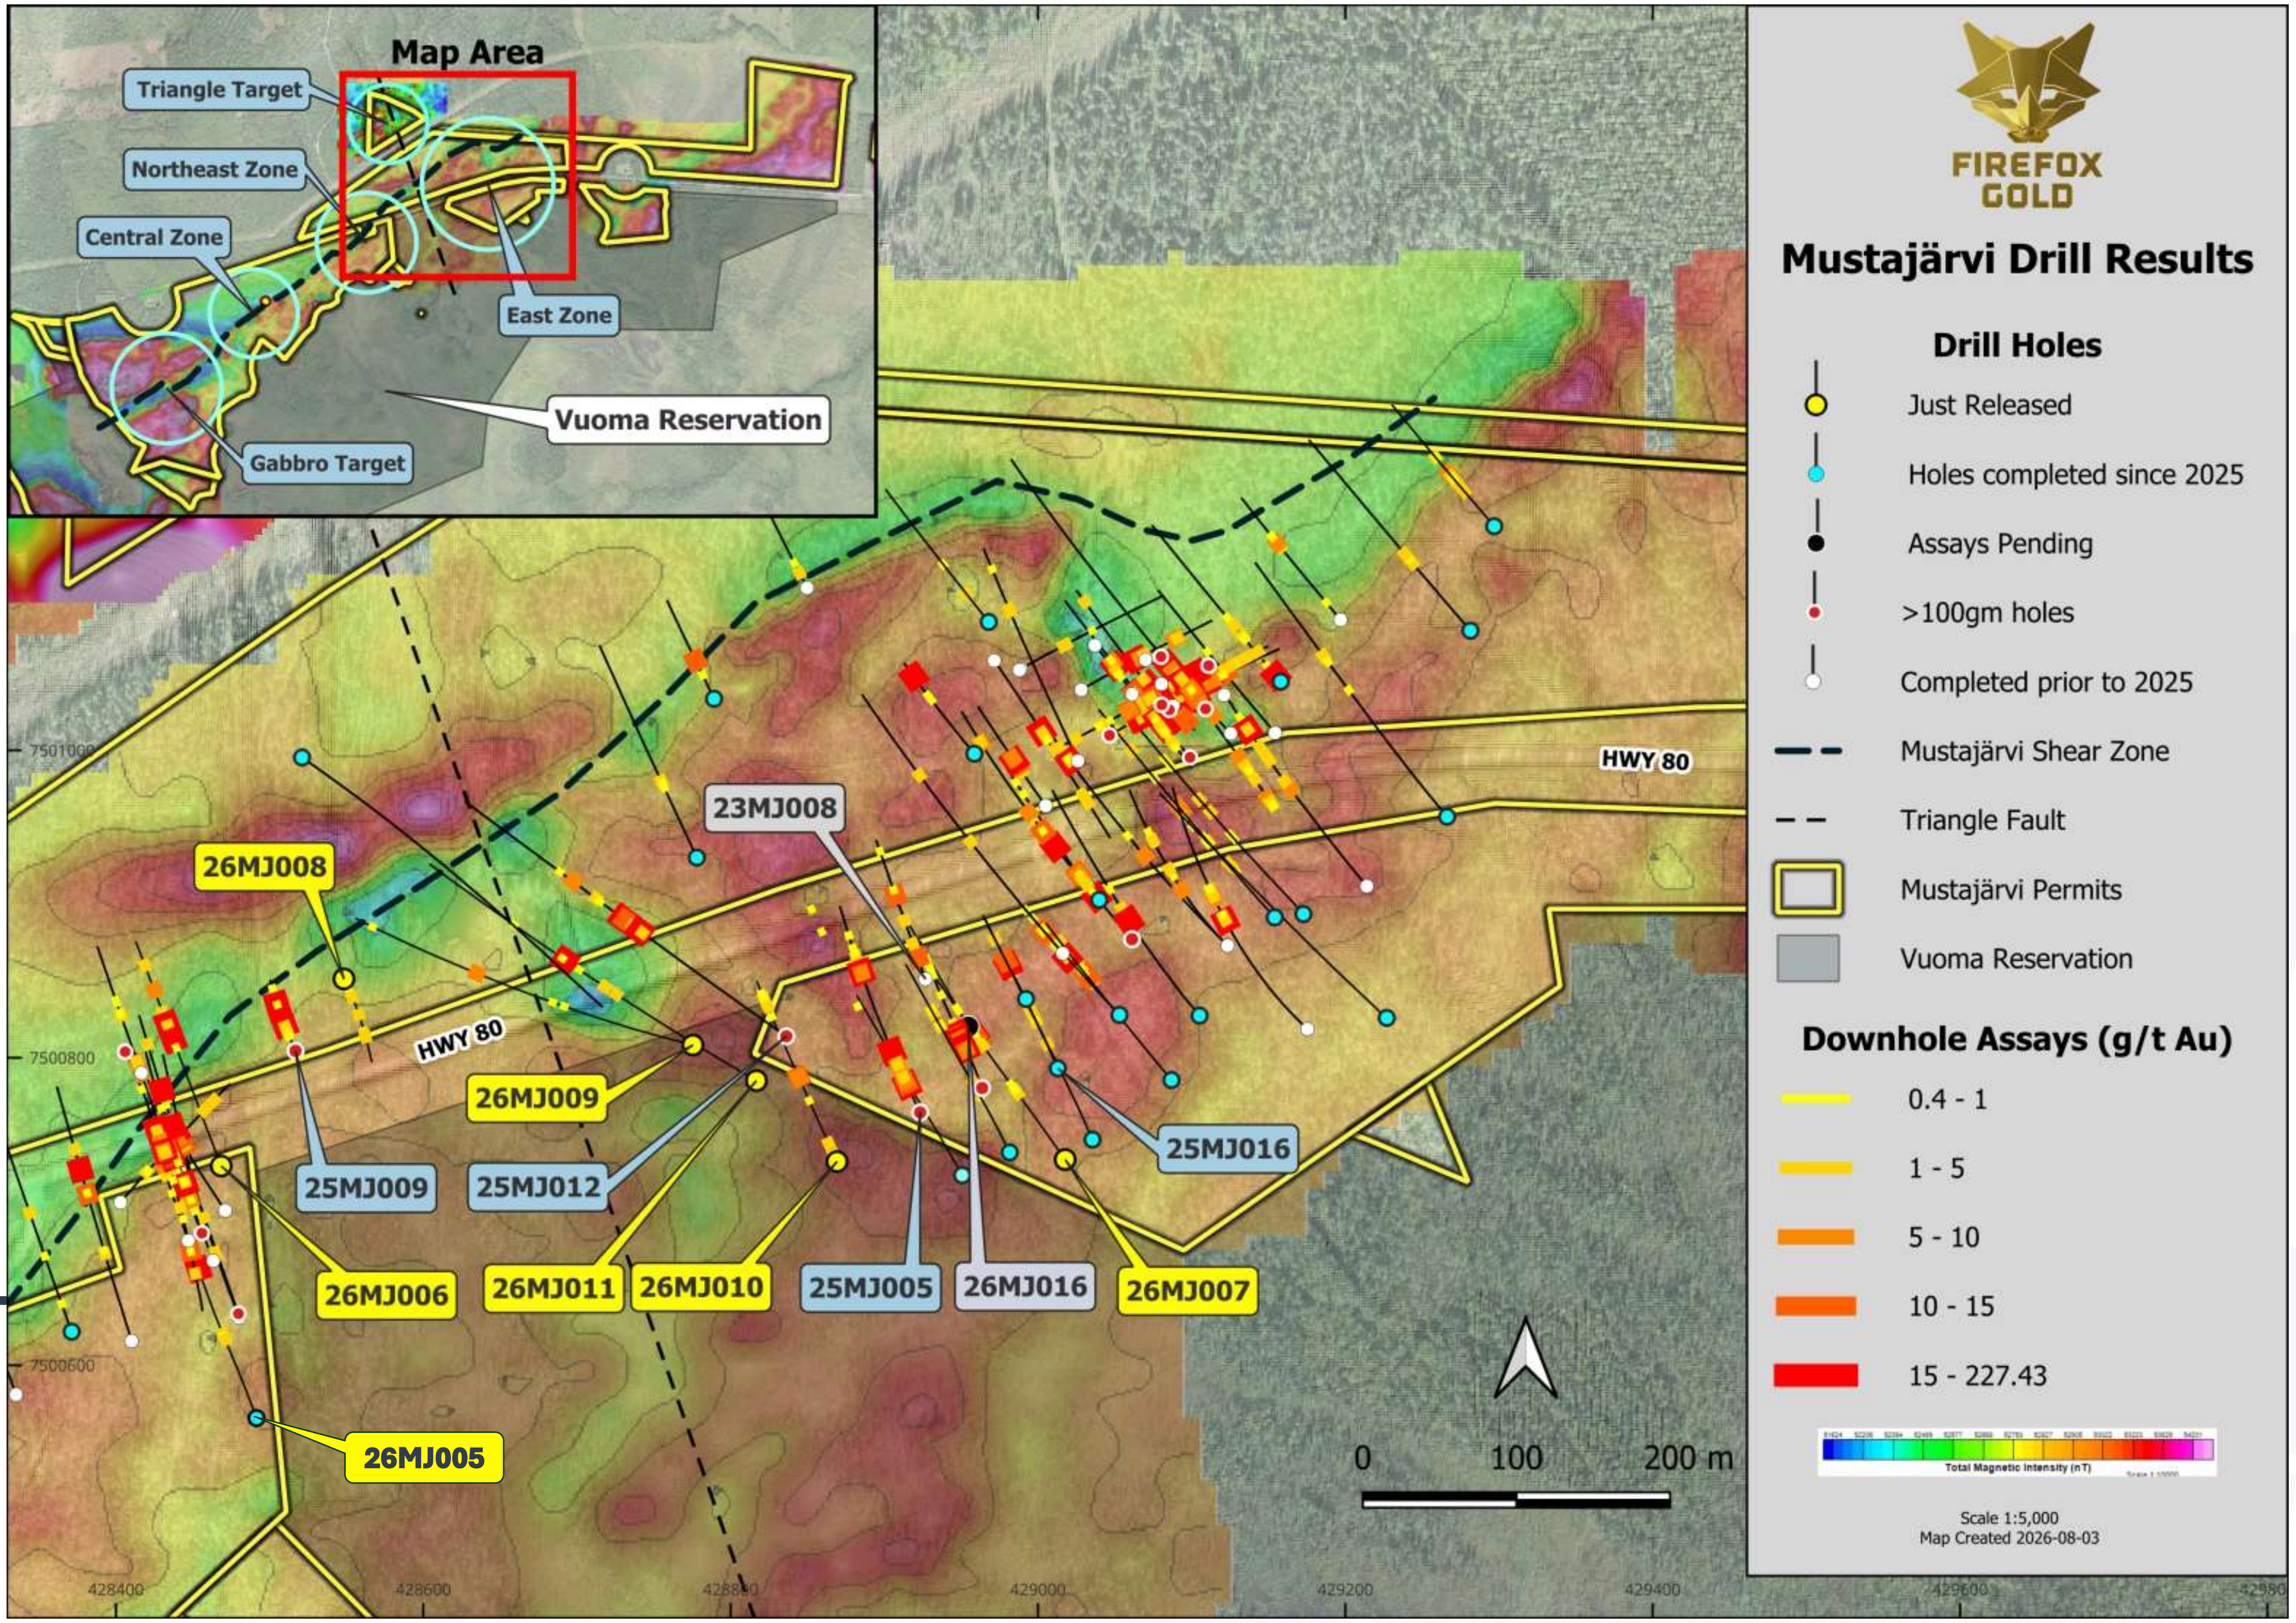
At least 1.2 kilometres of strike of high-grade – multiple lodes within the deformation zone

Diamond drilling, including infill & expansion holes, underway since August '25

Significant growth to the SW, west and east [25MJ001, 25MJ005, 26MJ004]

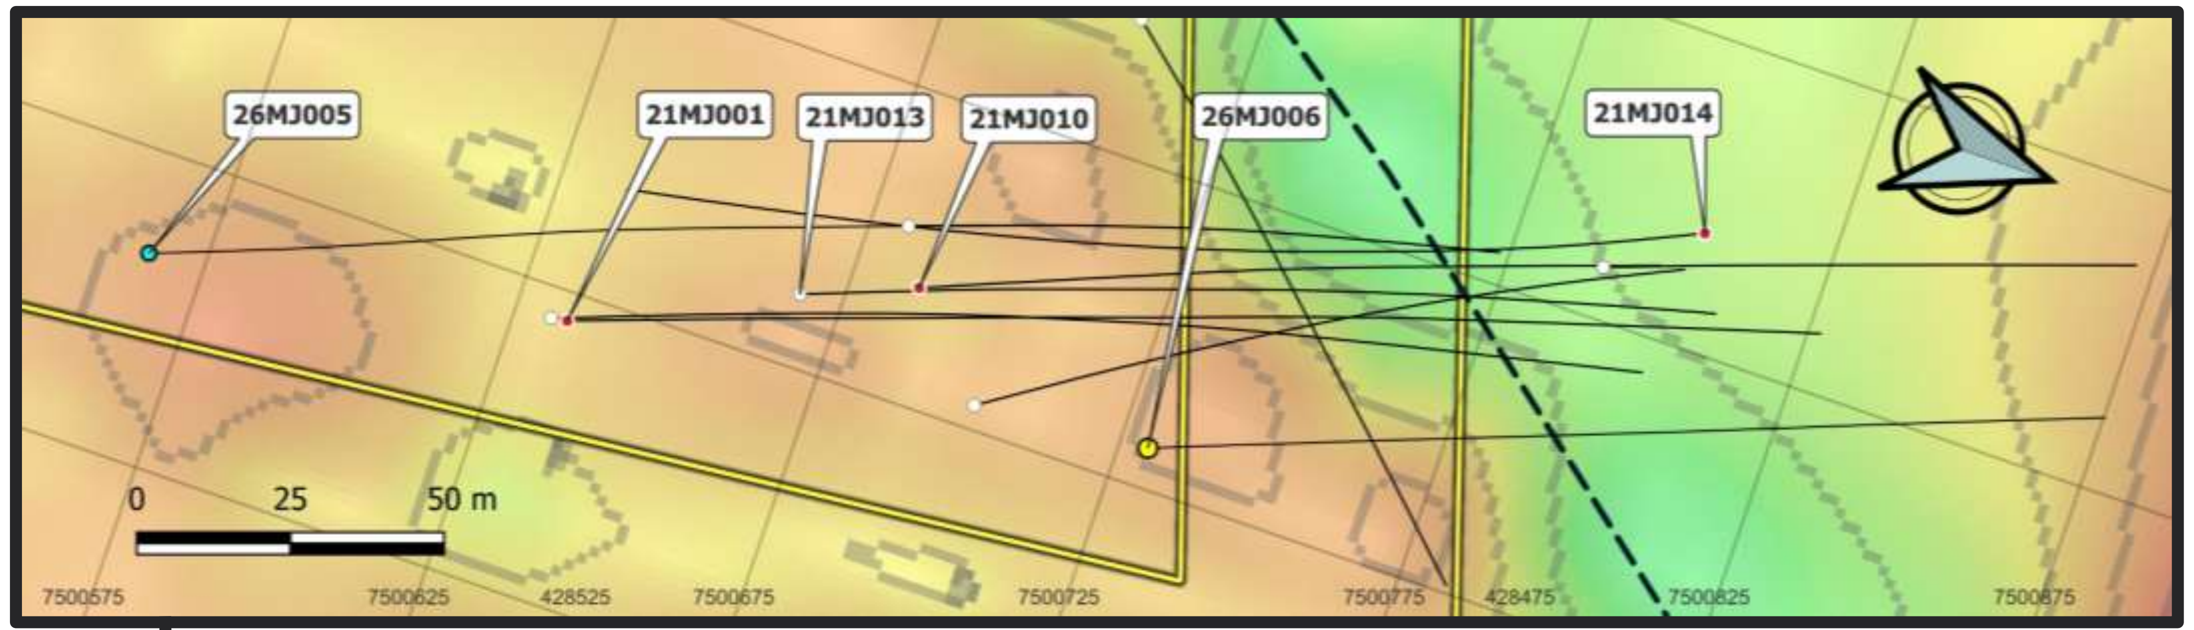
Holes 25MJ012, 25MJ009, and others **narrowing the gap** between the East & NE Zones

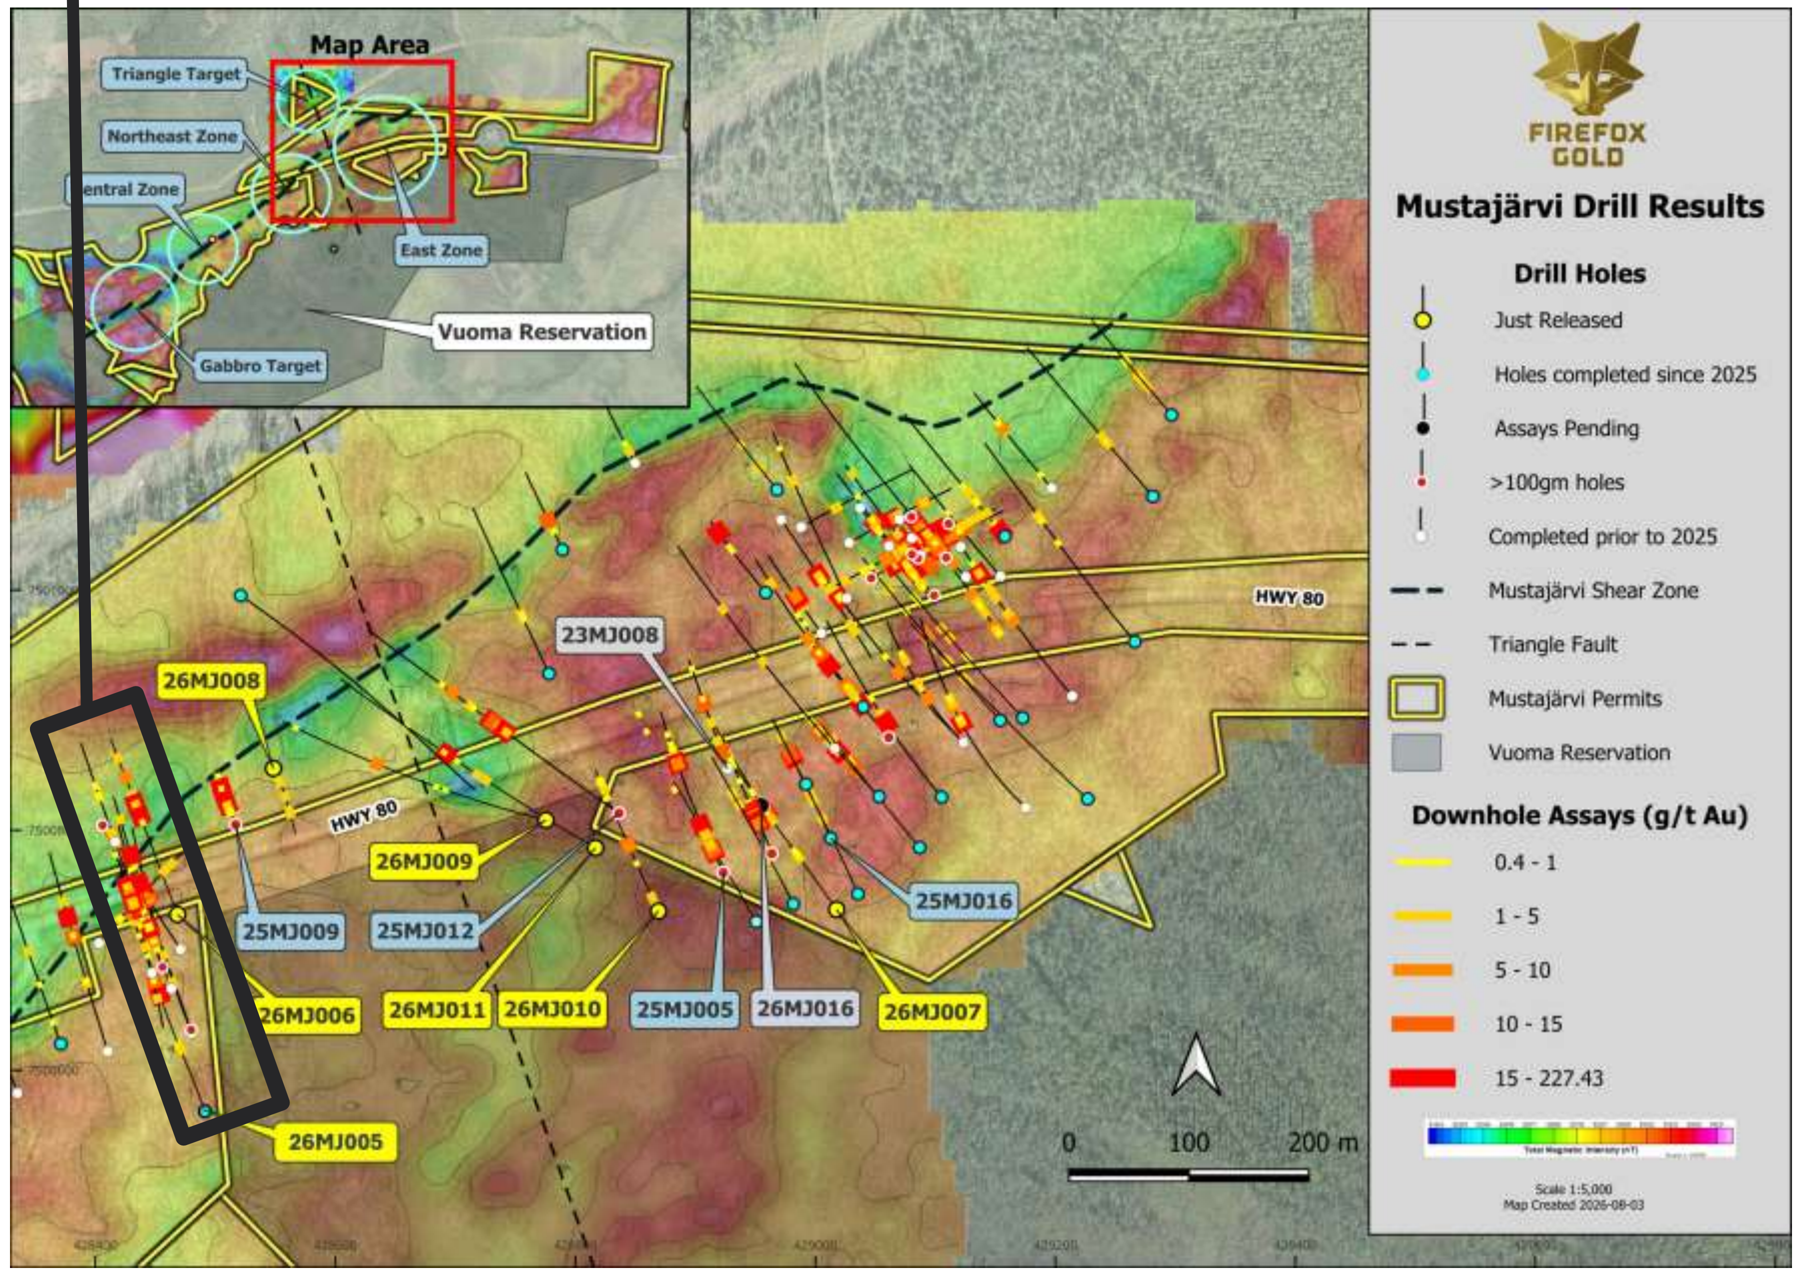
Deeper intercept (~300m) in 26MJ005 opens the NE Zone for growth, and new shallow intervals in 26MJ006 expand potential to the northeast [See section next slide]

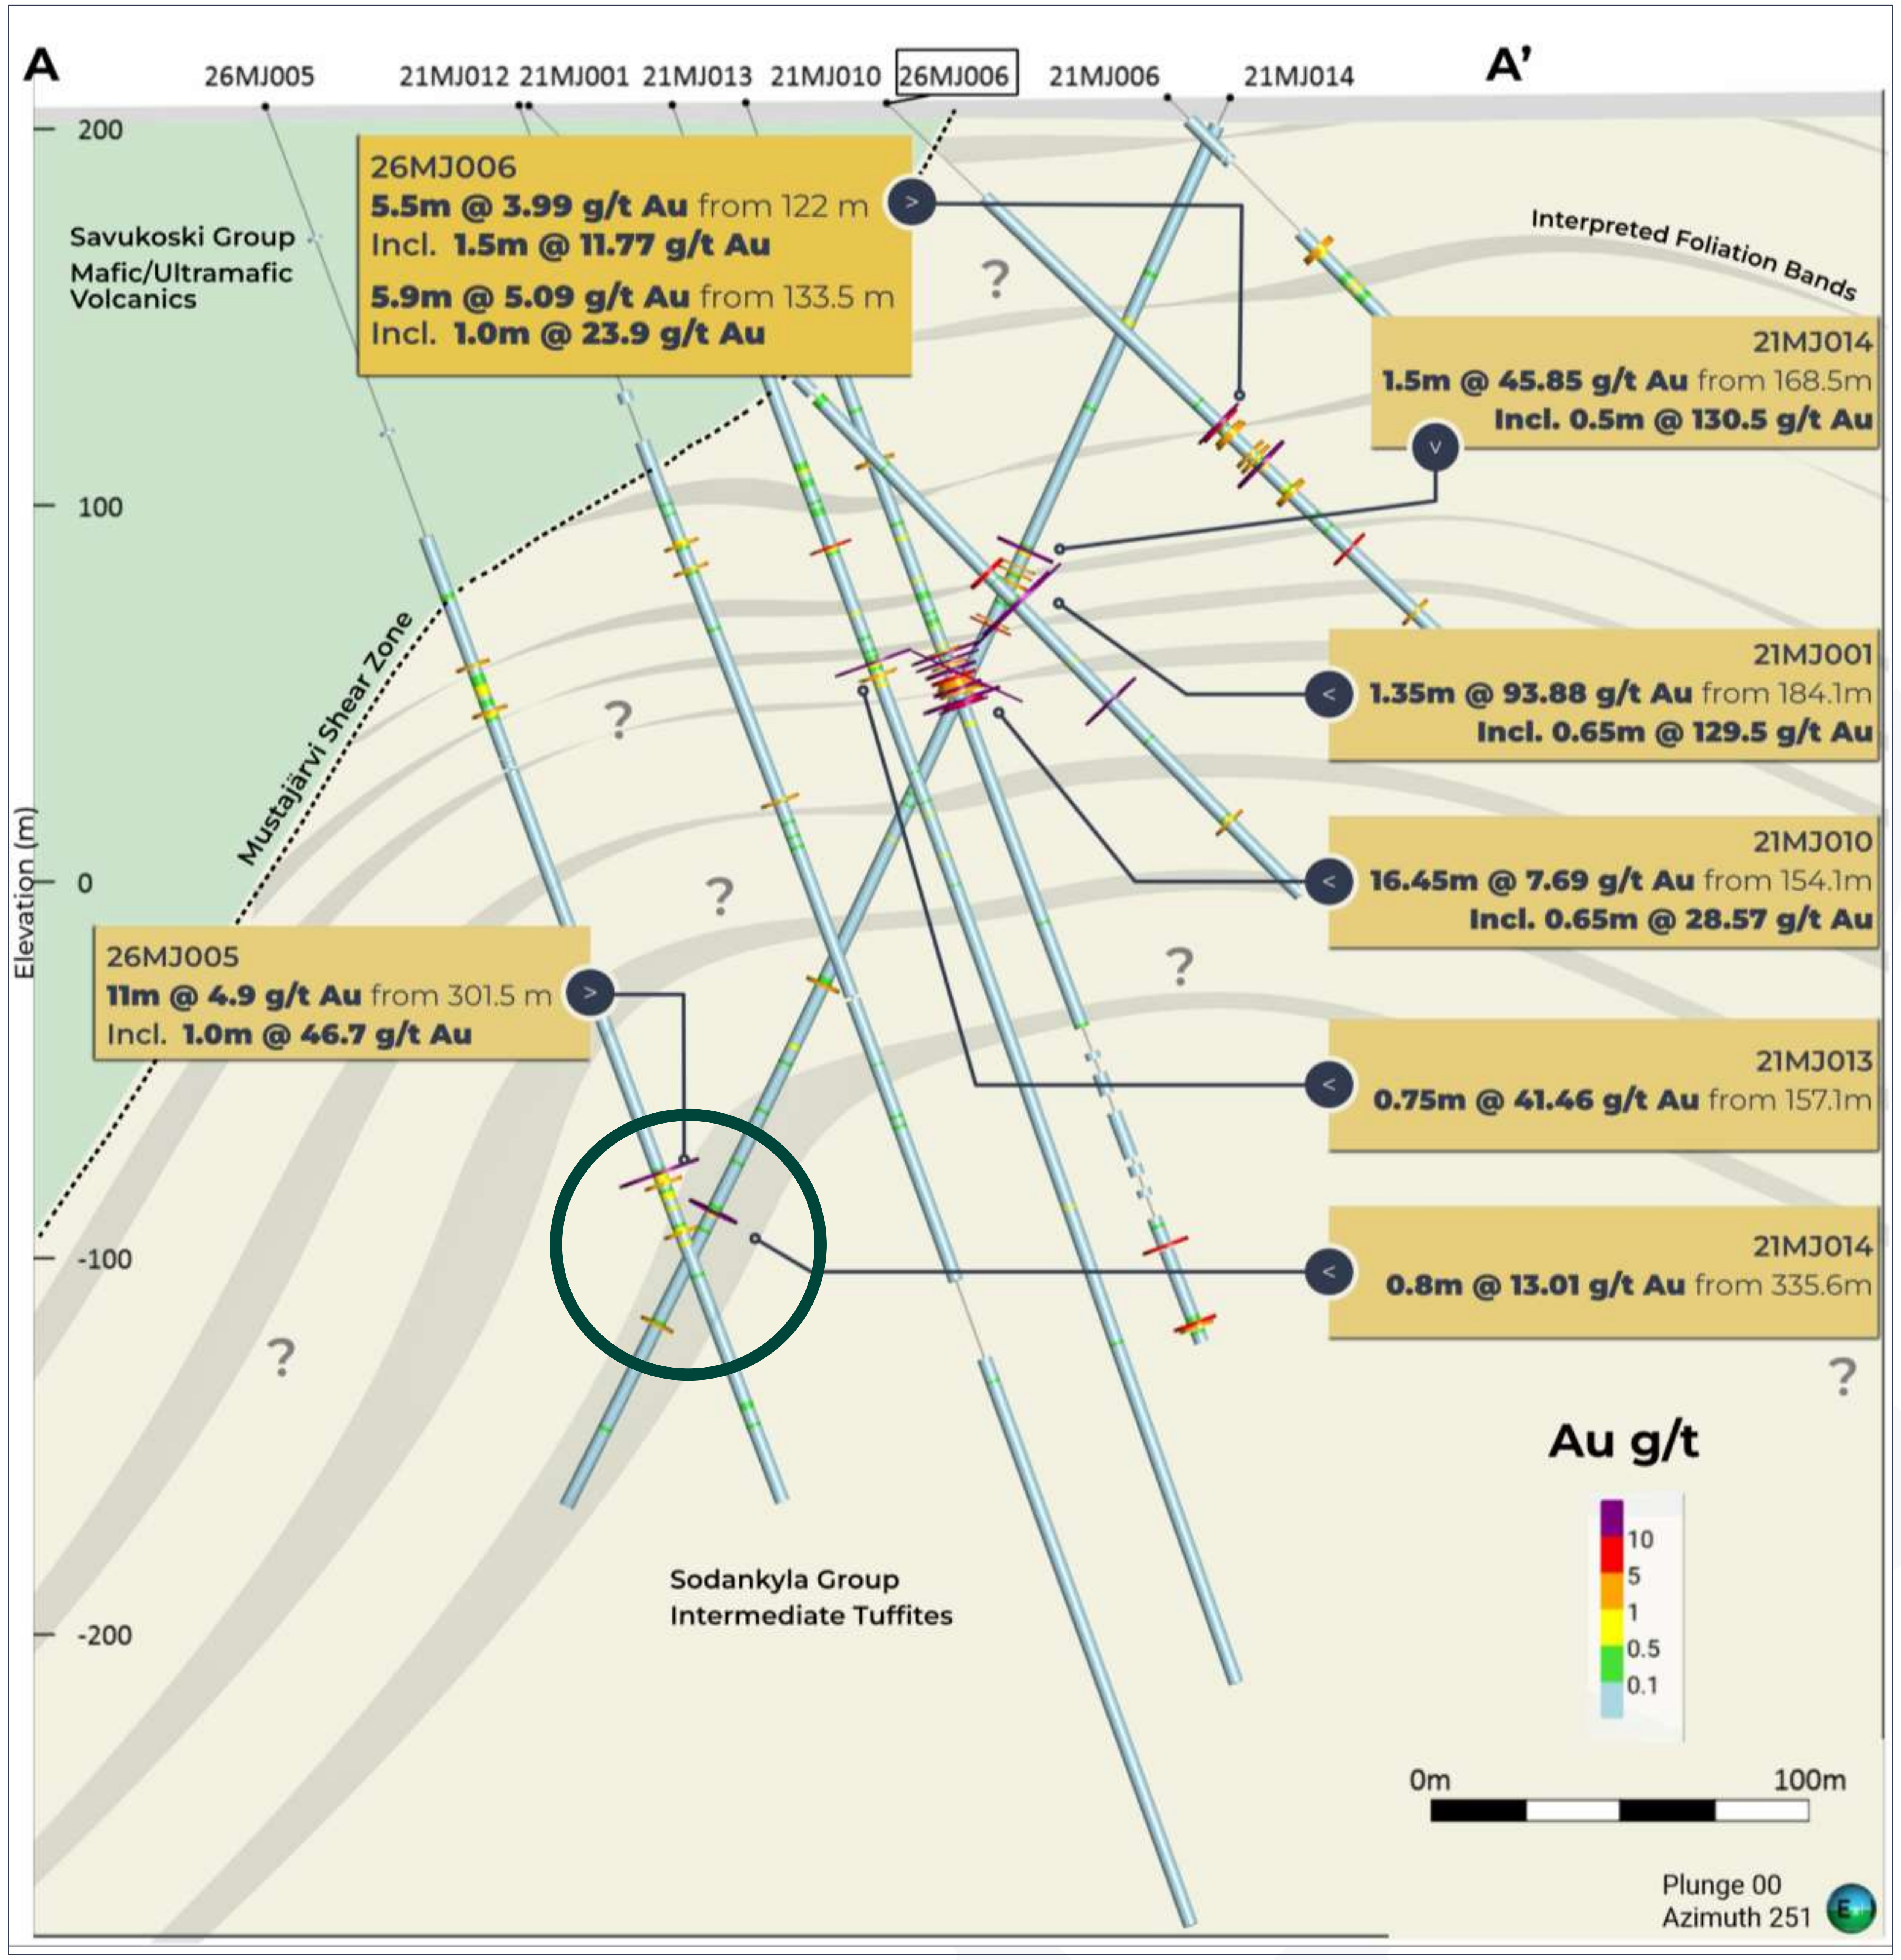


ANOTHER GROWTH DIMENSION

Northeast Zone Growth Potential

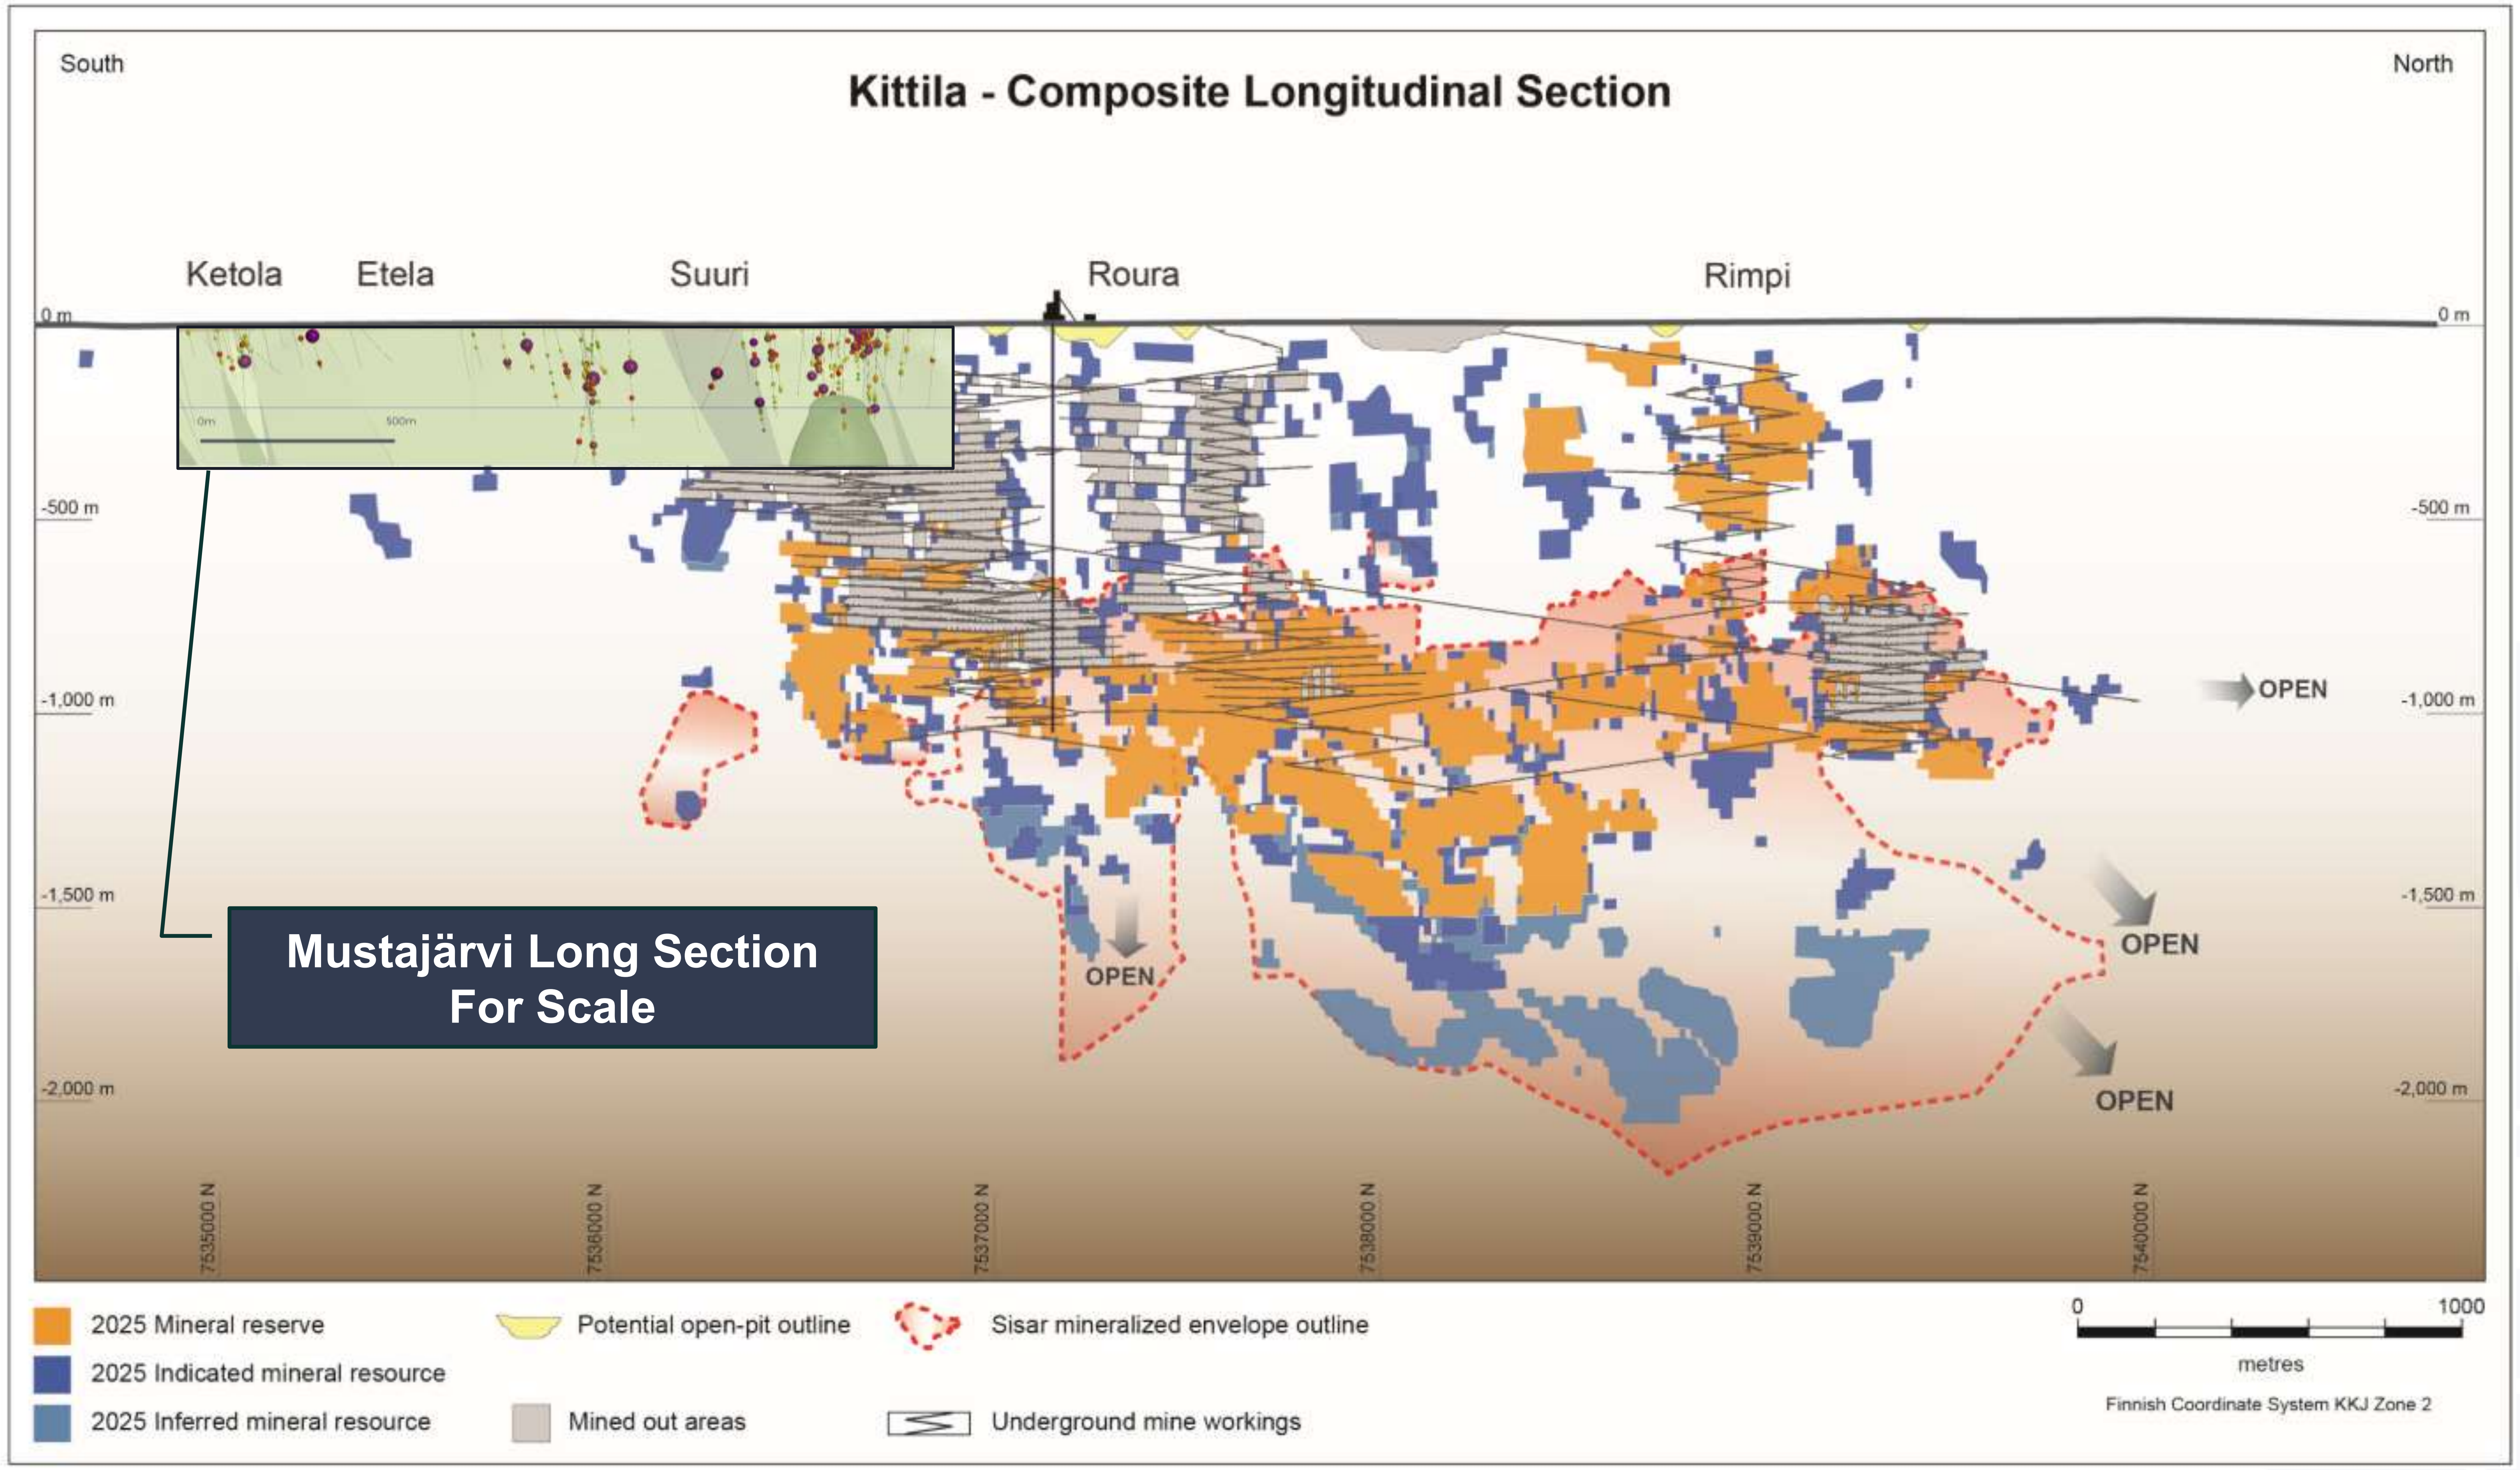


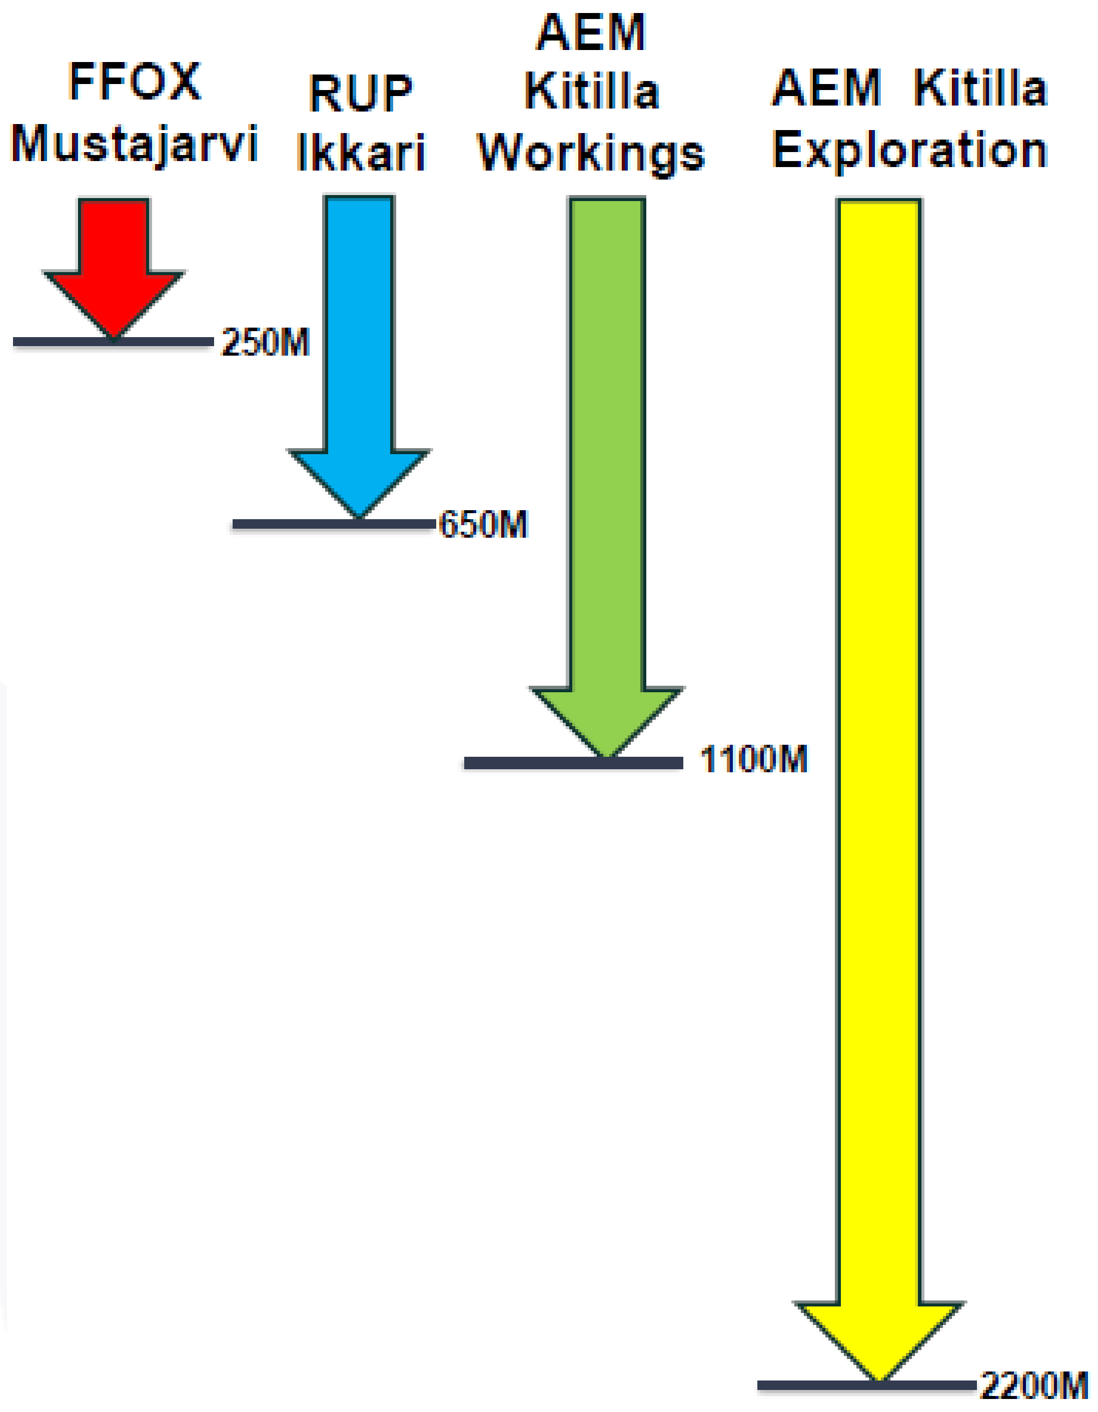




EARLY DAYS AT MUSTAJÄRVI

Significant Untested Potential





Source: Agnico Eagle Mines website: https://s205.q4cdn.com/243646470/files/images/operations-projects/Item-15-Kittila-Composite-Longitudinal-Section.png

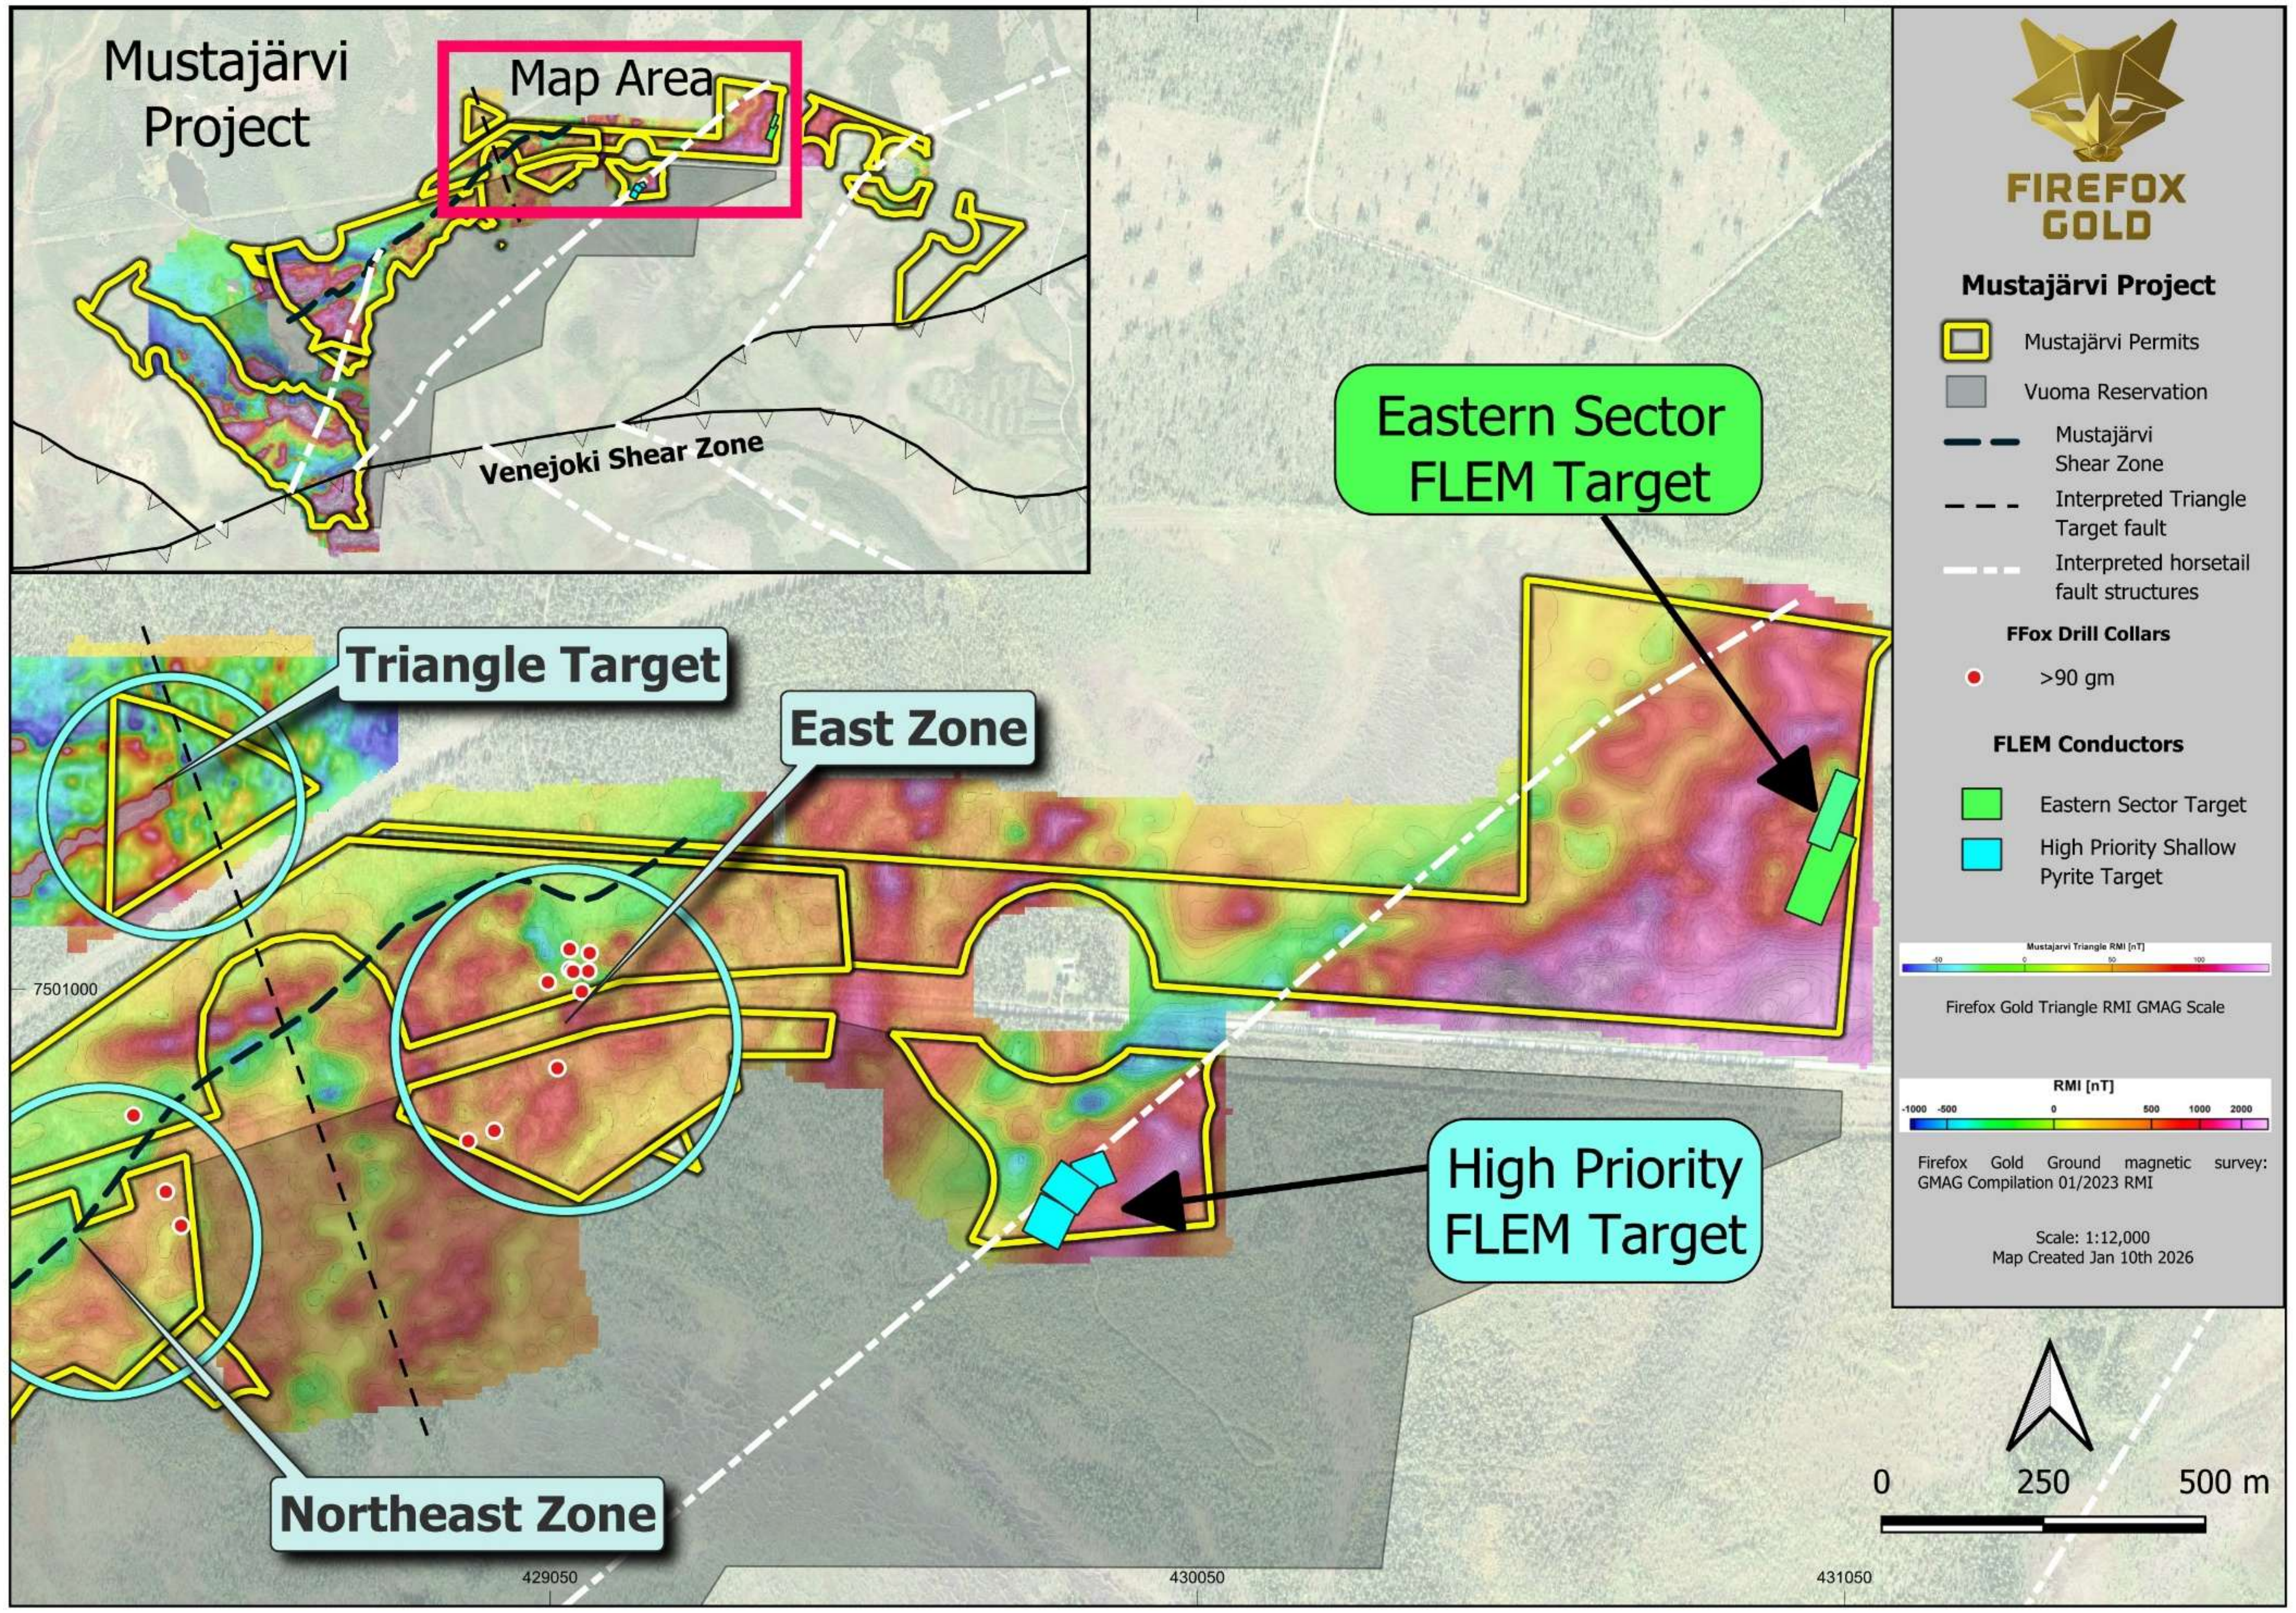
FIREFOX GOLD

MUSTAJÄRVI

More Targets for the 2026 Drill Program

Fixed-loop electromagnetic (FLEM) surveys are a new tool recently confirmed effective at identifying pyrite-hosted Au zones

- **New surveys identified 2 new targets in Eastern permit areas**
- High-priority target also sampled by BoT – results pending



MUSTAJÄRVI GOLD PROJECT

Accelerating towards Resources

MOST COMPREHENSIVE PROGRAM YET

DRILLING ON-GOING

Fully funded – infill & step-out of existing zones, and new targets to move project towards resource estimation

BoT sampling, geophysics & surface work continue to delineate new drill targets; on-going program includes Mustajärvi West, Mustajärvi East & Pikkulehto

2018

Mustajärvi property acquired
First drilling at Central Zone confirms historical results (**2m at 45.1 g/t Au**)

2020

NE Zone discovery hole
(2m @ 33 g/t); follow-up led to stronger grade-width including 16.45m at 7.7 g/t Au)

2021/2022

East Zone discovery hole and MORE outstanding gold grades (**13.85m at 28.8 g/t Au)**

2023

Exceptional grades in trenching (6.87m at 59 g/t Au). Additional structural controls identified and confirmed with step-out drilling.

2024

Still more high-grade in trenches
Property expansion to the east, more geophysics, and new targets on cross structures, along strike and at depth

2025

Drilling Starts Expanding East Zone
First phase of major new drill program tests step-out EM targets and hits **9.55 m @ 9.35 g/t Au** from 65.45 m & **11.1 m @ 7.28 g/t Au** from 85.15 m in 25MJ001, and in 25MJ005 **12.4 m @ 13.75 g/t Au** from 37.9 m

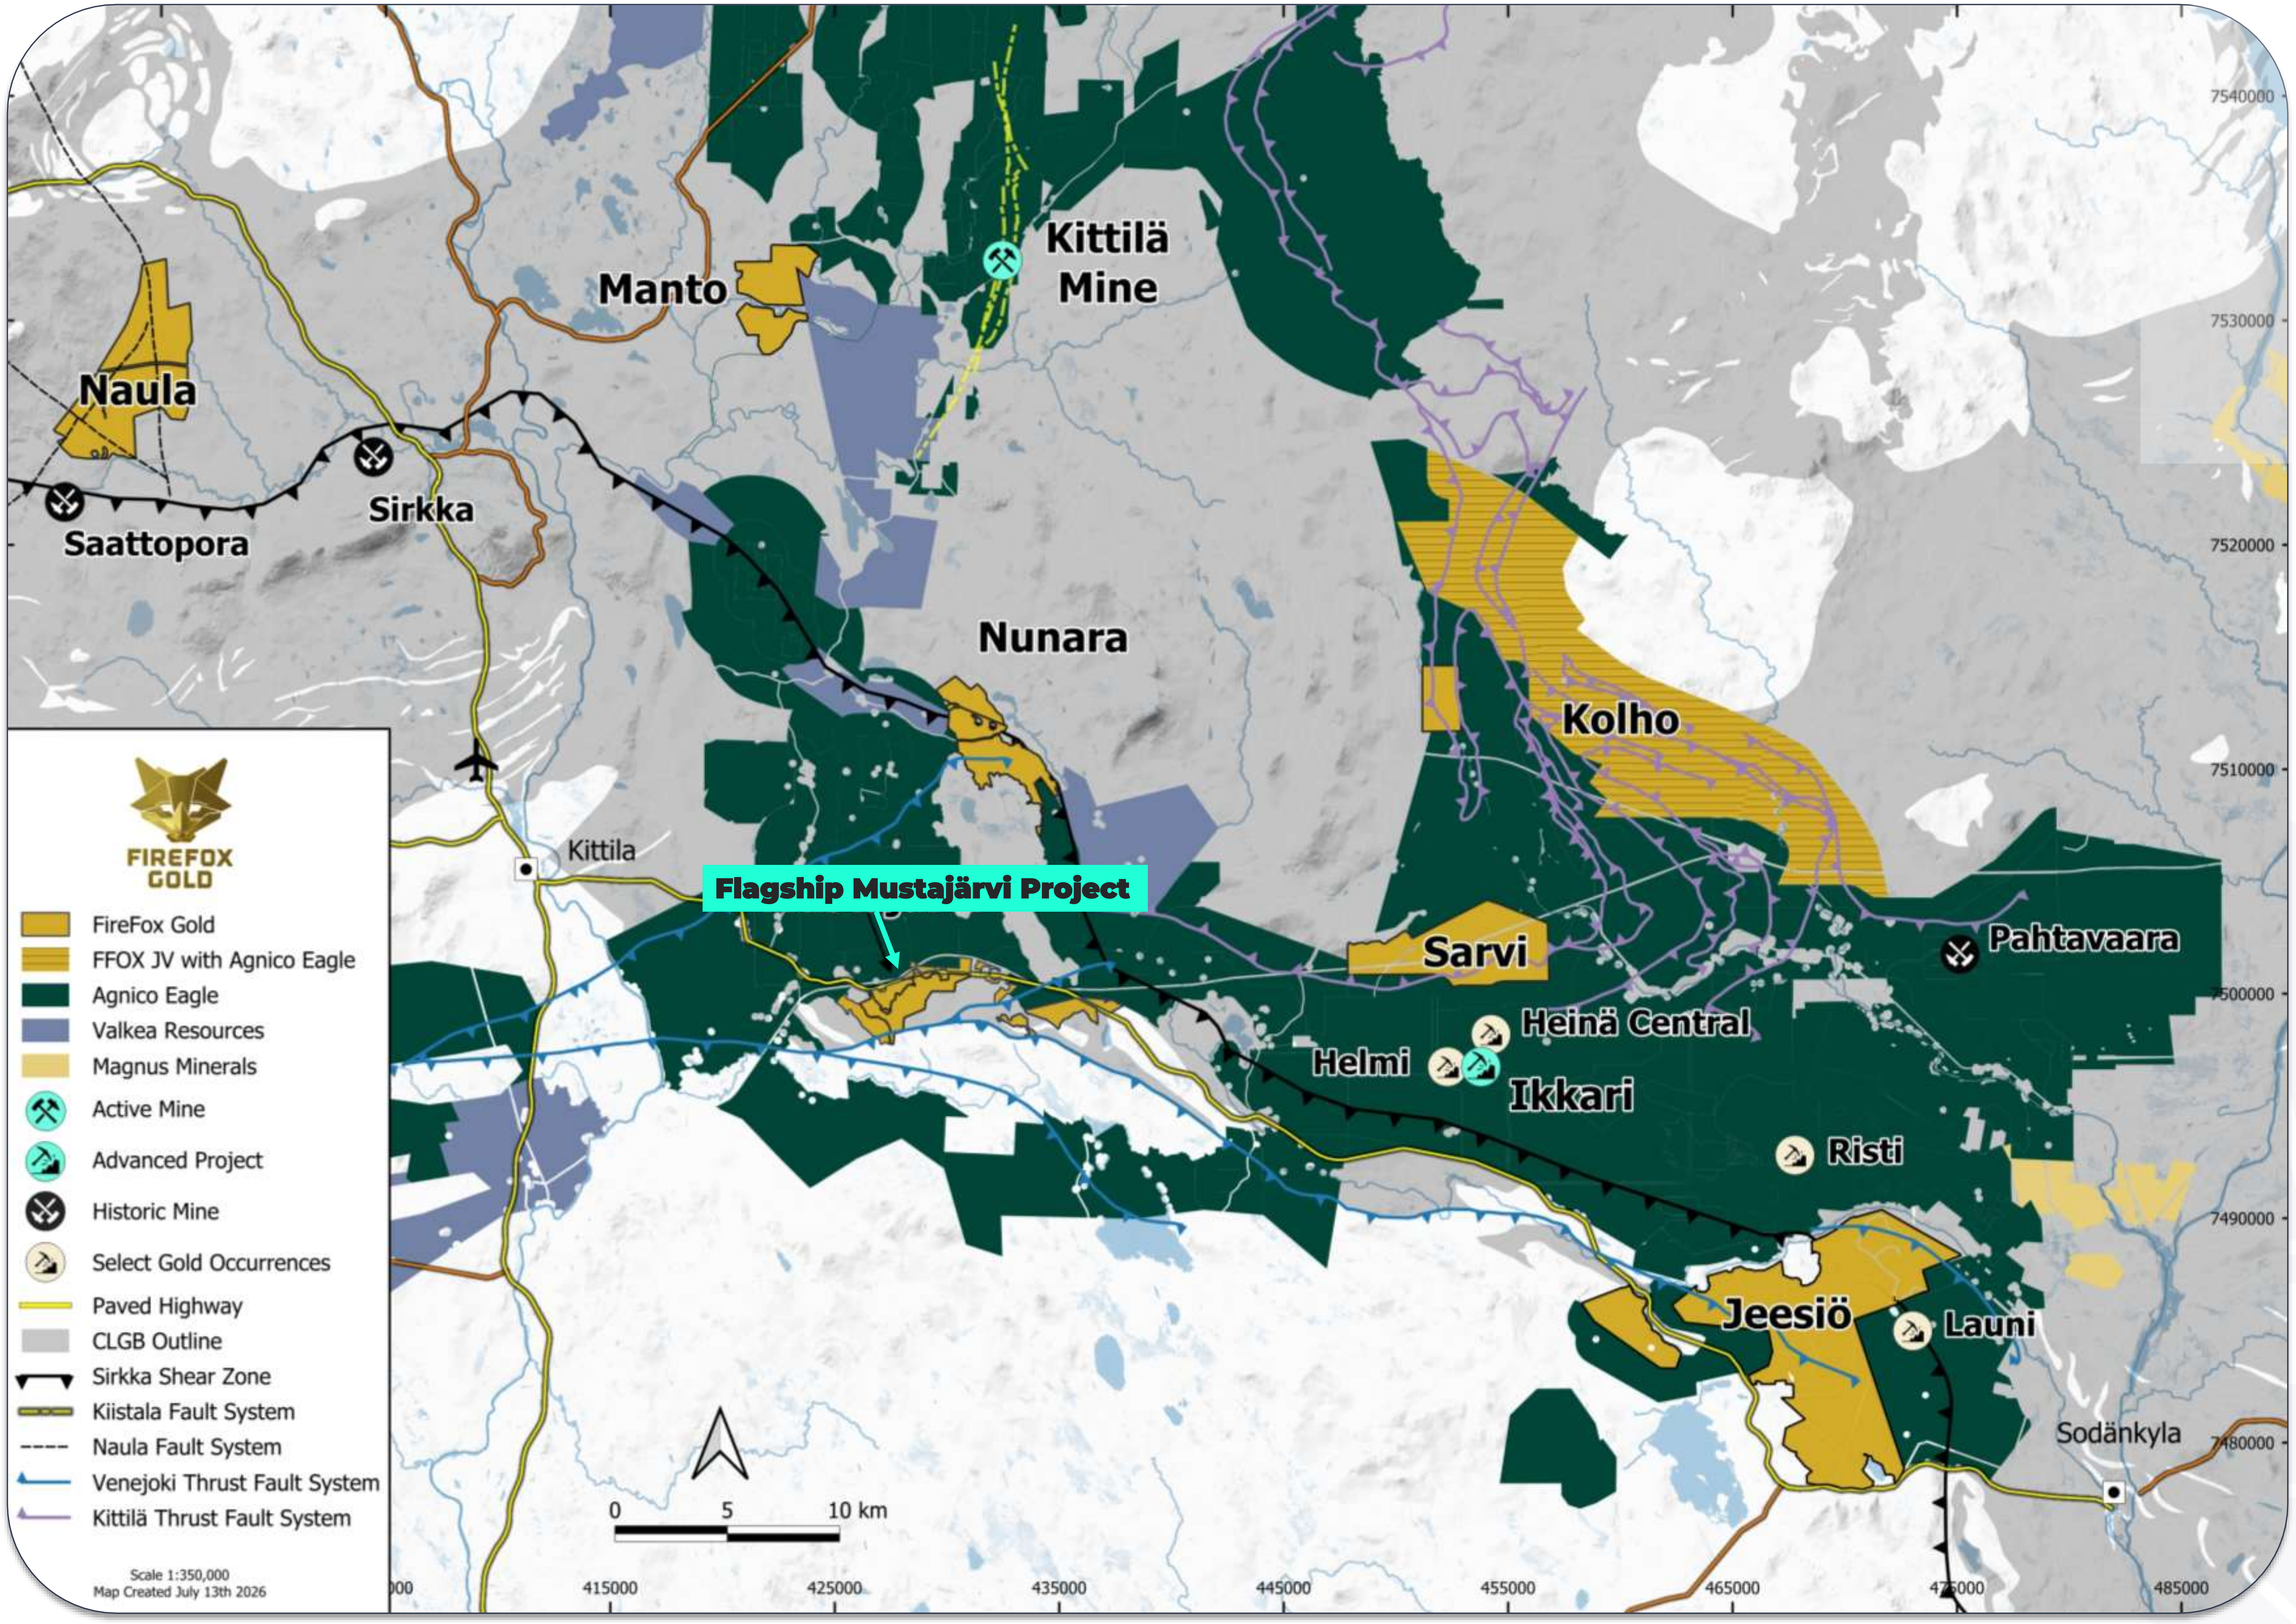
Q2 – Q4 2026

Continuous drilling with regular news flow anticipated

2027

Maiden Mineral Resource Estimate

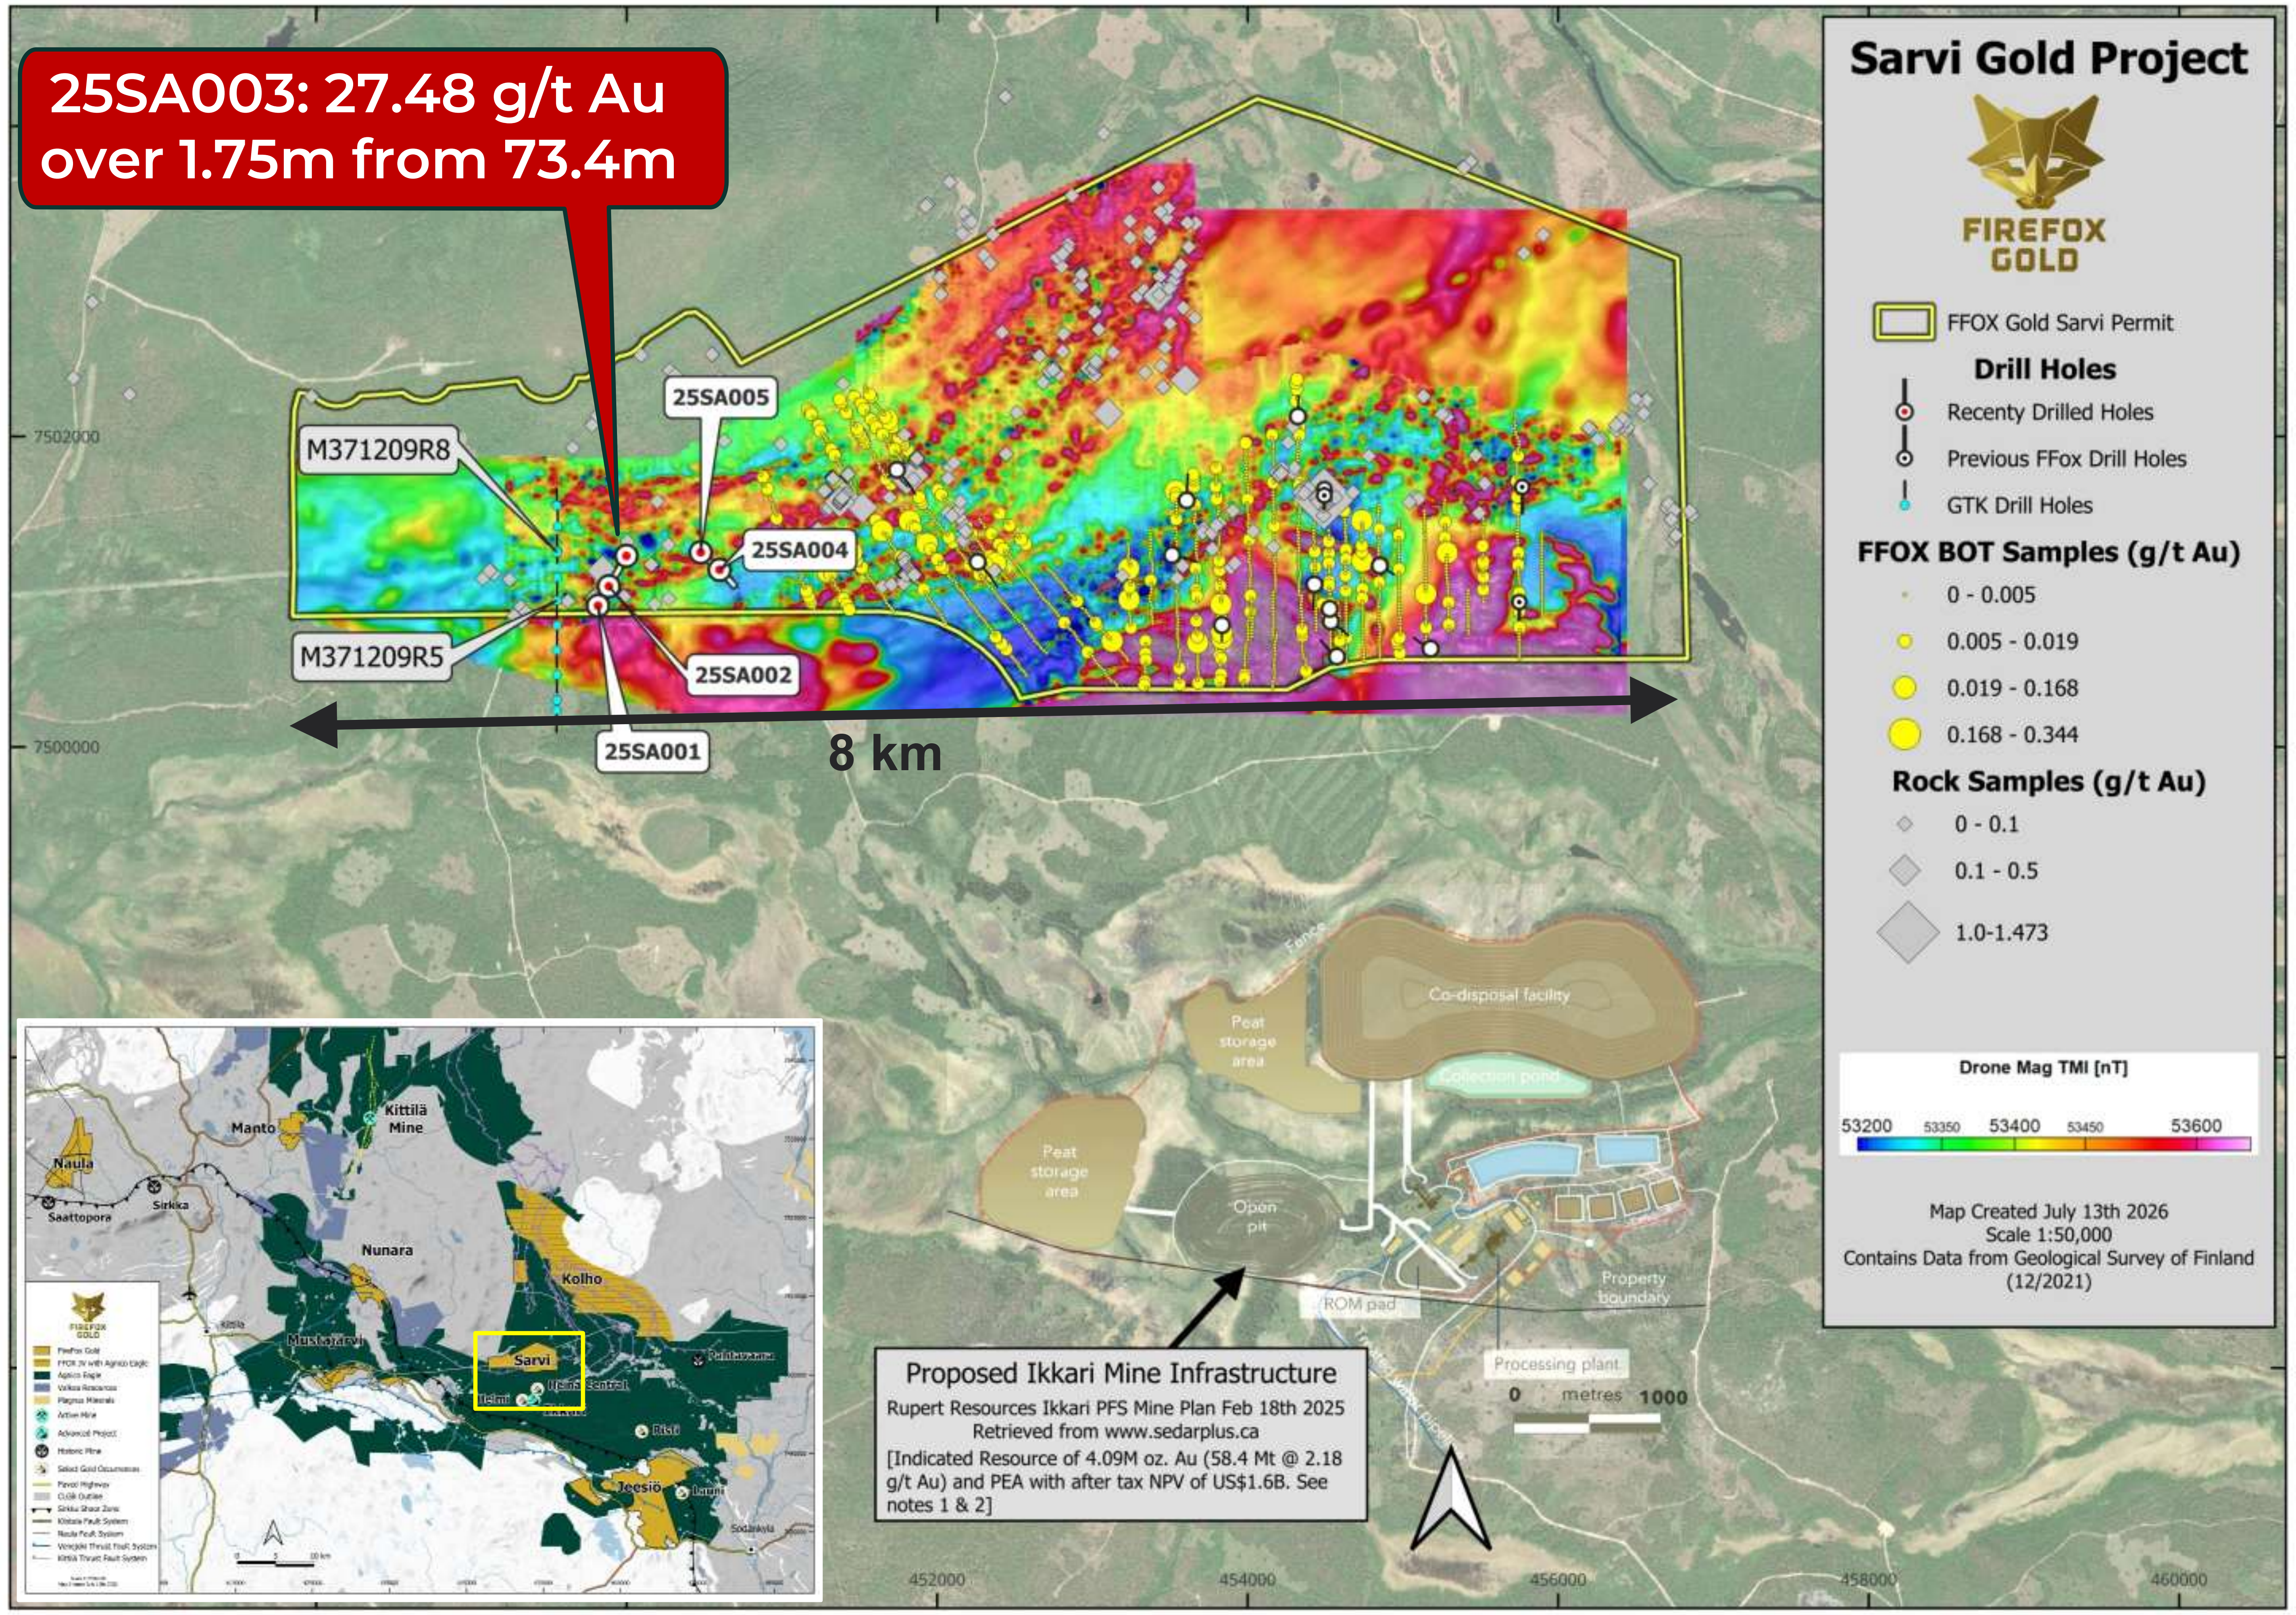
Additional 100%-Held Projects



FIREFOX GOLD

ATTRACTIVE GEOLOGICAL SETTING ADJACENT TO IKKARI PROJECT

Sarvi Gold Project



NEIGHBOURHOOD: Immediately North of Agnico Eagle's Ikkari deposit and Helmi prospect with similar structure and host rock setting[1,2]

SYSTEMATIC EXPLORATION HIGHLIGHTS:

» Banded, N-S, geophysical (EM and Mag) features through Sarvi & Lehto properties show similarities to the Kittilä/Kiistala shear zone

» GTK drill results from 2009 intersected 1.6 m @ 1.1 g/t Au from 26.4 m depth (M371209R5) and 0.5 m @ 3.57 g/t Au from 69.5 m depth (M371209R8)[3,4]

» Micro panning of a 10kg heavy mineral sample revealed 118 gold micro-nuggets and anomalous arsenic

» Mapping, sampling, and ground + airborne geophysics completed in 2020 - 2021 programs

» On-going surface work to delineate drill targets:

- 1,575 BOT samples collected
- 479m of trenching dug and sampled
- Widespread multi-element anomalies including Au, Ag, As, Sb, Cu, Mo, Bi, Te, Zn and other elements

1 Results from other companies in Finland, including properties proximal to those controlled by FireFox, are not indicative of expected FireFox results, as there has been insufficient exploration on the properties held by FireFox. FireFox further cautions that similar geology, geological setting, or proximity to a discovery or mineral resource do not ensure that mineralization will occur on FireFox's property, and if mineralization does occur, that it will occur in sufficient quantity or grade that would result in an economic extraction scenario. 2 From Technical Report, news releases and corporate presentation on http://agnicoeagle.com and www.sedarplus.ca, originally filed by Rupert Resources. 3 Source: Geological Survey of Finland. 4 FireFox has not done sufficient work to verify the historical drilling. These historic results also may not be indicative of future exploration results. Until such time as confirmed by FireFox and its QP's, these results are not to be relied upon.

FIREFOX GOLD

SARVI PROJECT

Near-Surface High-Grade Gold

- Limited drilling in 2022-2023 identified anomalous mineralization mostly coincident with BoT geochemistry
  - Encouraging low level gold & silver
- New recon drill program completed Q4/25 - Expanding exploration along trend to the west
  - **Results include an interval of +20g/t Au**

- More BoT sampling planned to support drill targeting
- **New Drilling underway in Q2 2026**

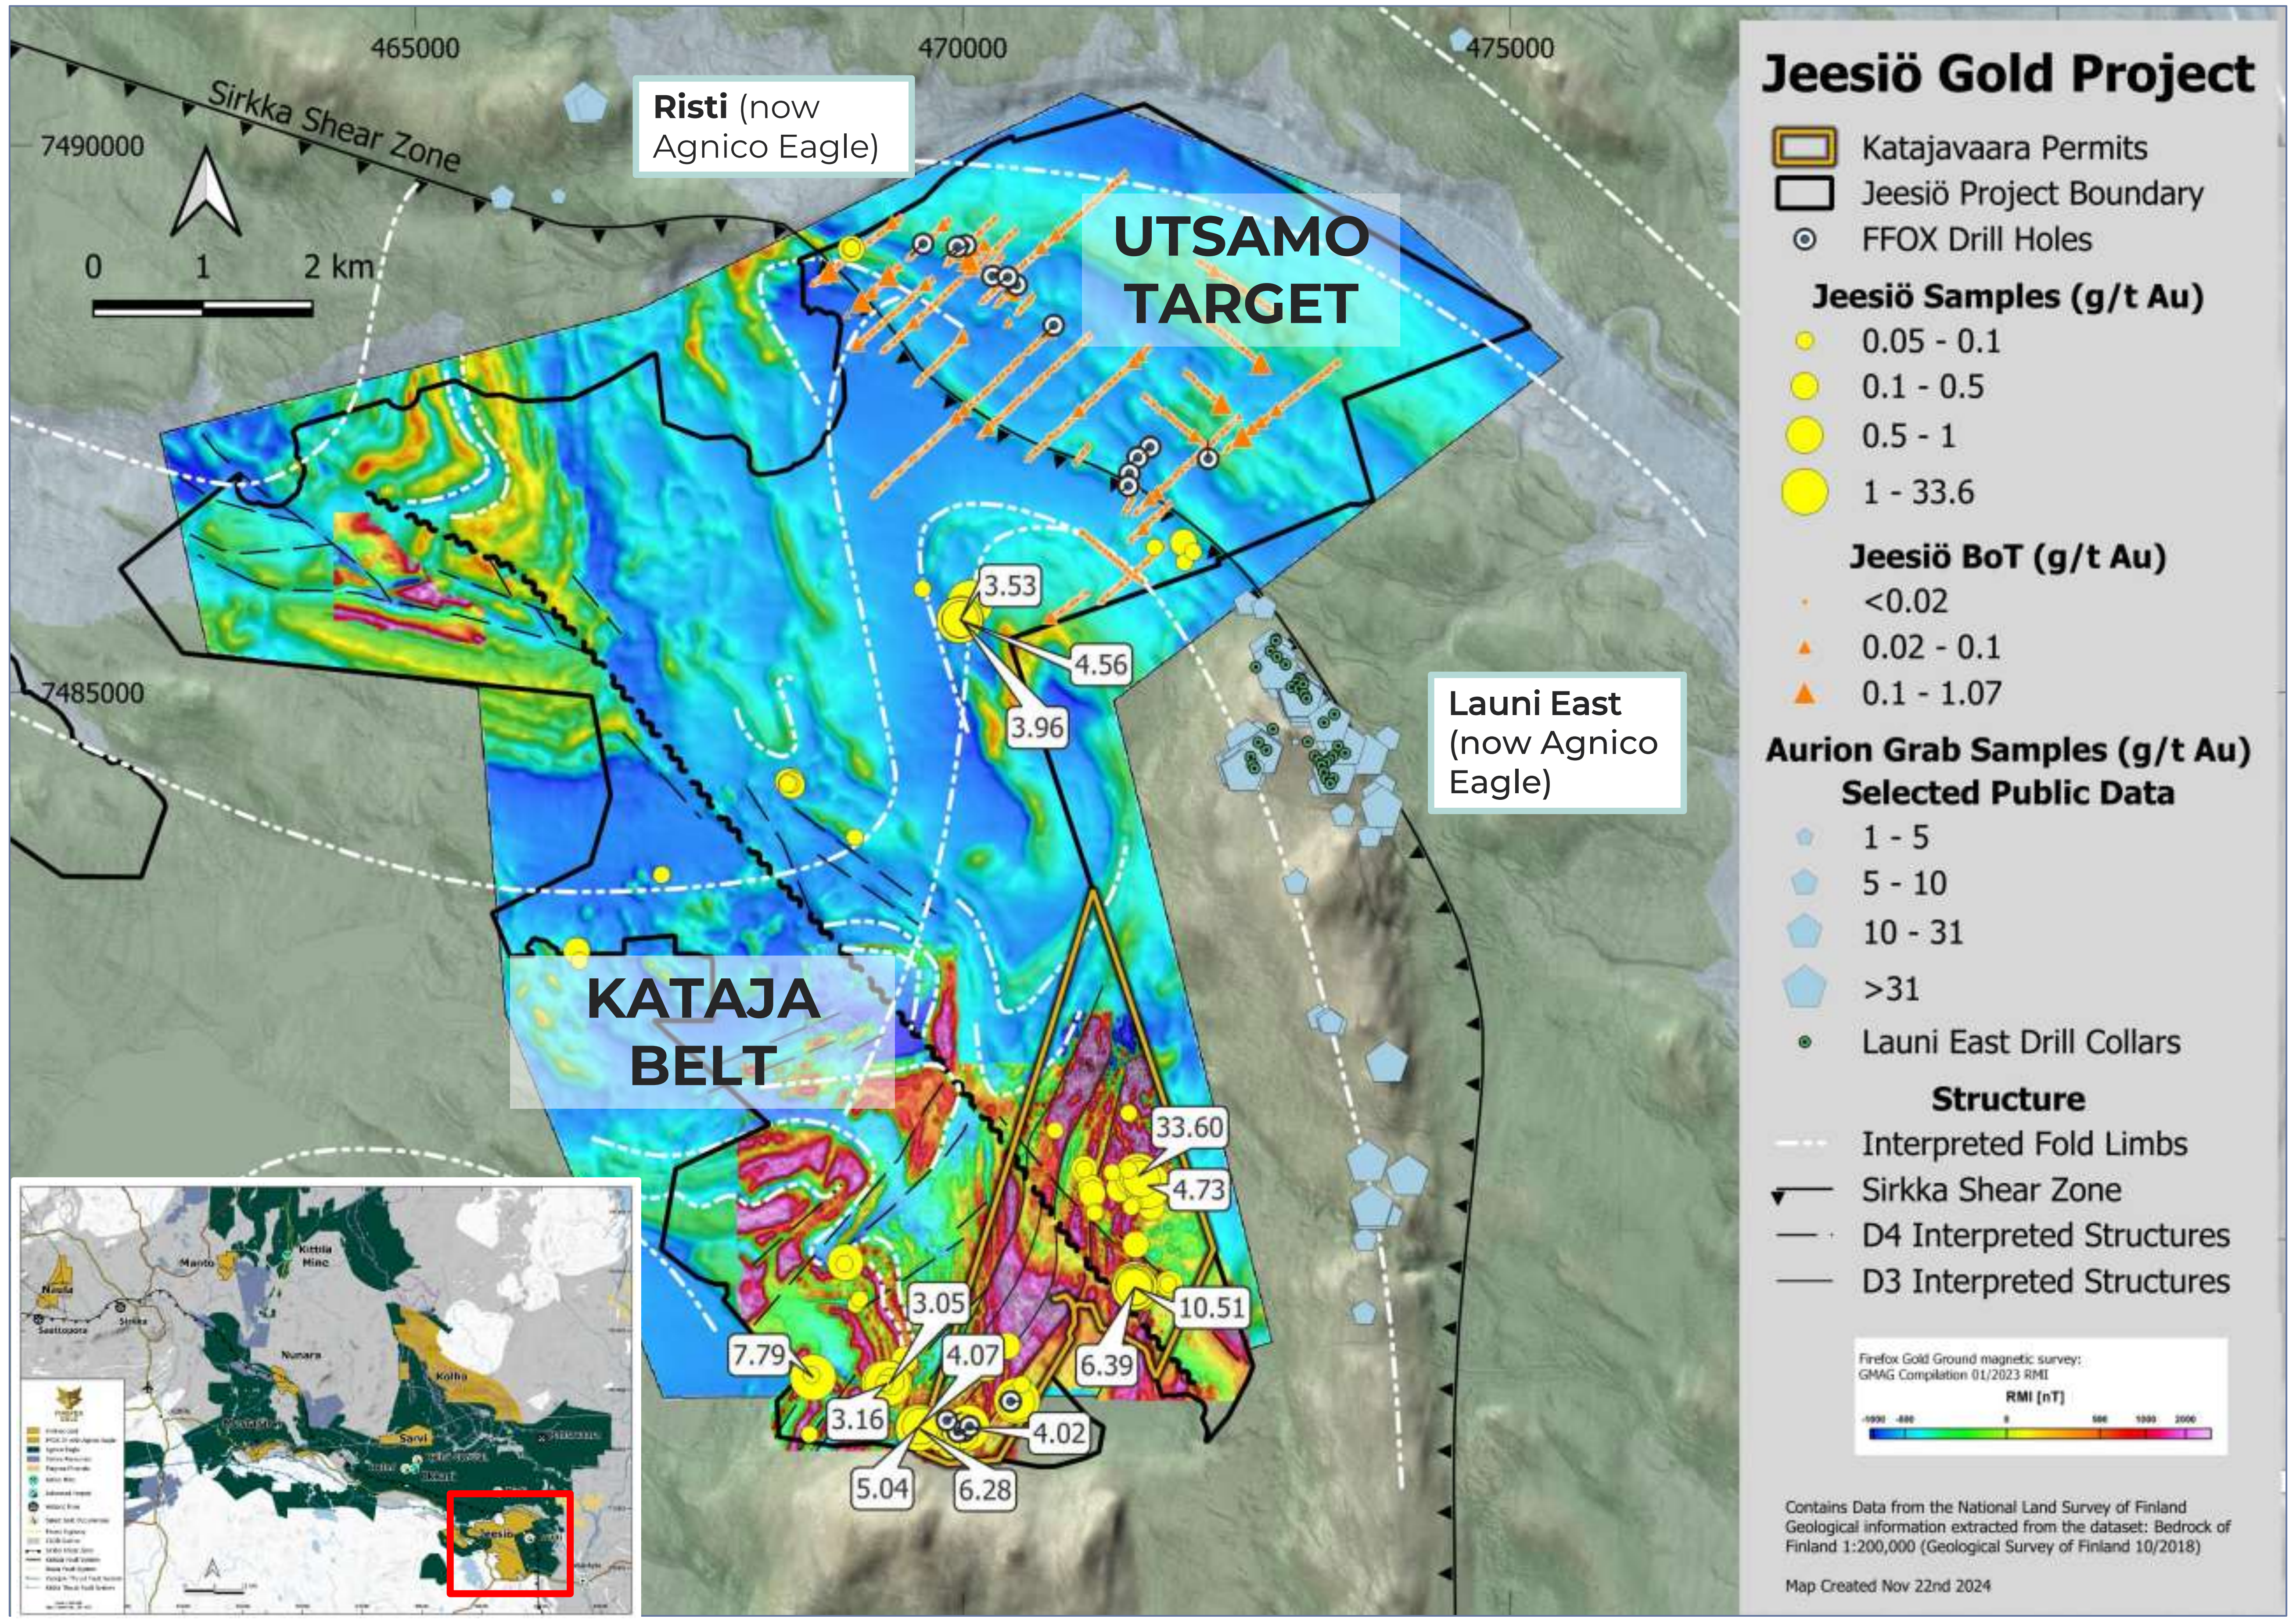
SARVI PROJECT

Second Project To Hit +20 g/t Au In Drilling

- Drill hole 25SA003 encountered a high-grade gold zone of **1.75 m @ 27.48 g/t Au, including 0.8 m @ 53.50 g/t Au**, from 73.4 m; hosted in a 3.2-metre-thick sulphide-rich breccia zone, which included patchy arsenopyrite and chalcopyrite

AREA OF INTENSE EXPLORATION & DISCOVERY

Jeesiö Gold Project



100% OWNED TENURE: 71km². Multiple prospects in the area with significant historic investment.

TARGETS: Related to major regional structures (Sirkka and Venejoki Thrust Zones) [1,2]

Utsamo Target is between the Risti and Launi East discoveries reported by Aurion Resources[3,4]

High-grade Kataja Belt targets 2km SW from the Launi East vein system (subject of earn-in JV between Aurion & Kinross[3,4])

Kataja Belt gold anomalies span ~4km N to S

HIGHLIGHTS: Extensive historic gold in till anomalies[1] & more than 400 FireFox rock samples in the area with up to 6.39 g/t Au in outcrop.

STRATEGY: 2024 ground mag and sampling in Kataja Belt identified a major new structure, and new prospective areas for follow-up – 2025 magnetic surveys and 2026 BoT program in the plan.

[1] Source: Geological Survey of Finland
[2] Interpreted Venejoki Thrust Zone (VTZ). Niiranen, T., Lahti, I., Nykänen, V., & Karinen, T. (2014). Central Lapland Greenstone Belt 3D modeling project final report. Geological Survey of Finland, Report of Investigation, 209, 78.
[3] Results from other companies in Finland, including properties proximal to those controlled by FireFox, are not indicative of expected FireFox results, as there has been insufficient exploration on the properties held by FireFox. FireFox further cautions that similar geology, geological setting, or proximity to a discovery or mineral resource do not ensure that mineralization will occur on FireFox's property, and if mineralization does occur, that it will occur in sufficient quantity or grade that would result in an economic extraction scenario.
[4] From news releases and corporate presentation up to January 2024 filed on www.sedarplus.ca by Aurion Resources.

JEESIO GOLD PROJECT

Kataja Belt: 4km of High Gold

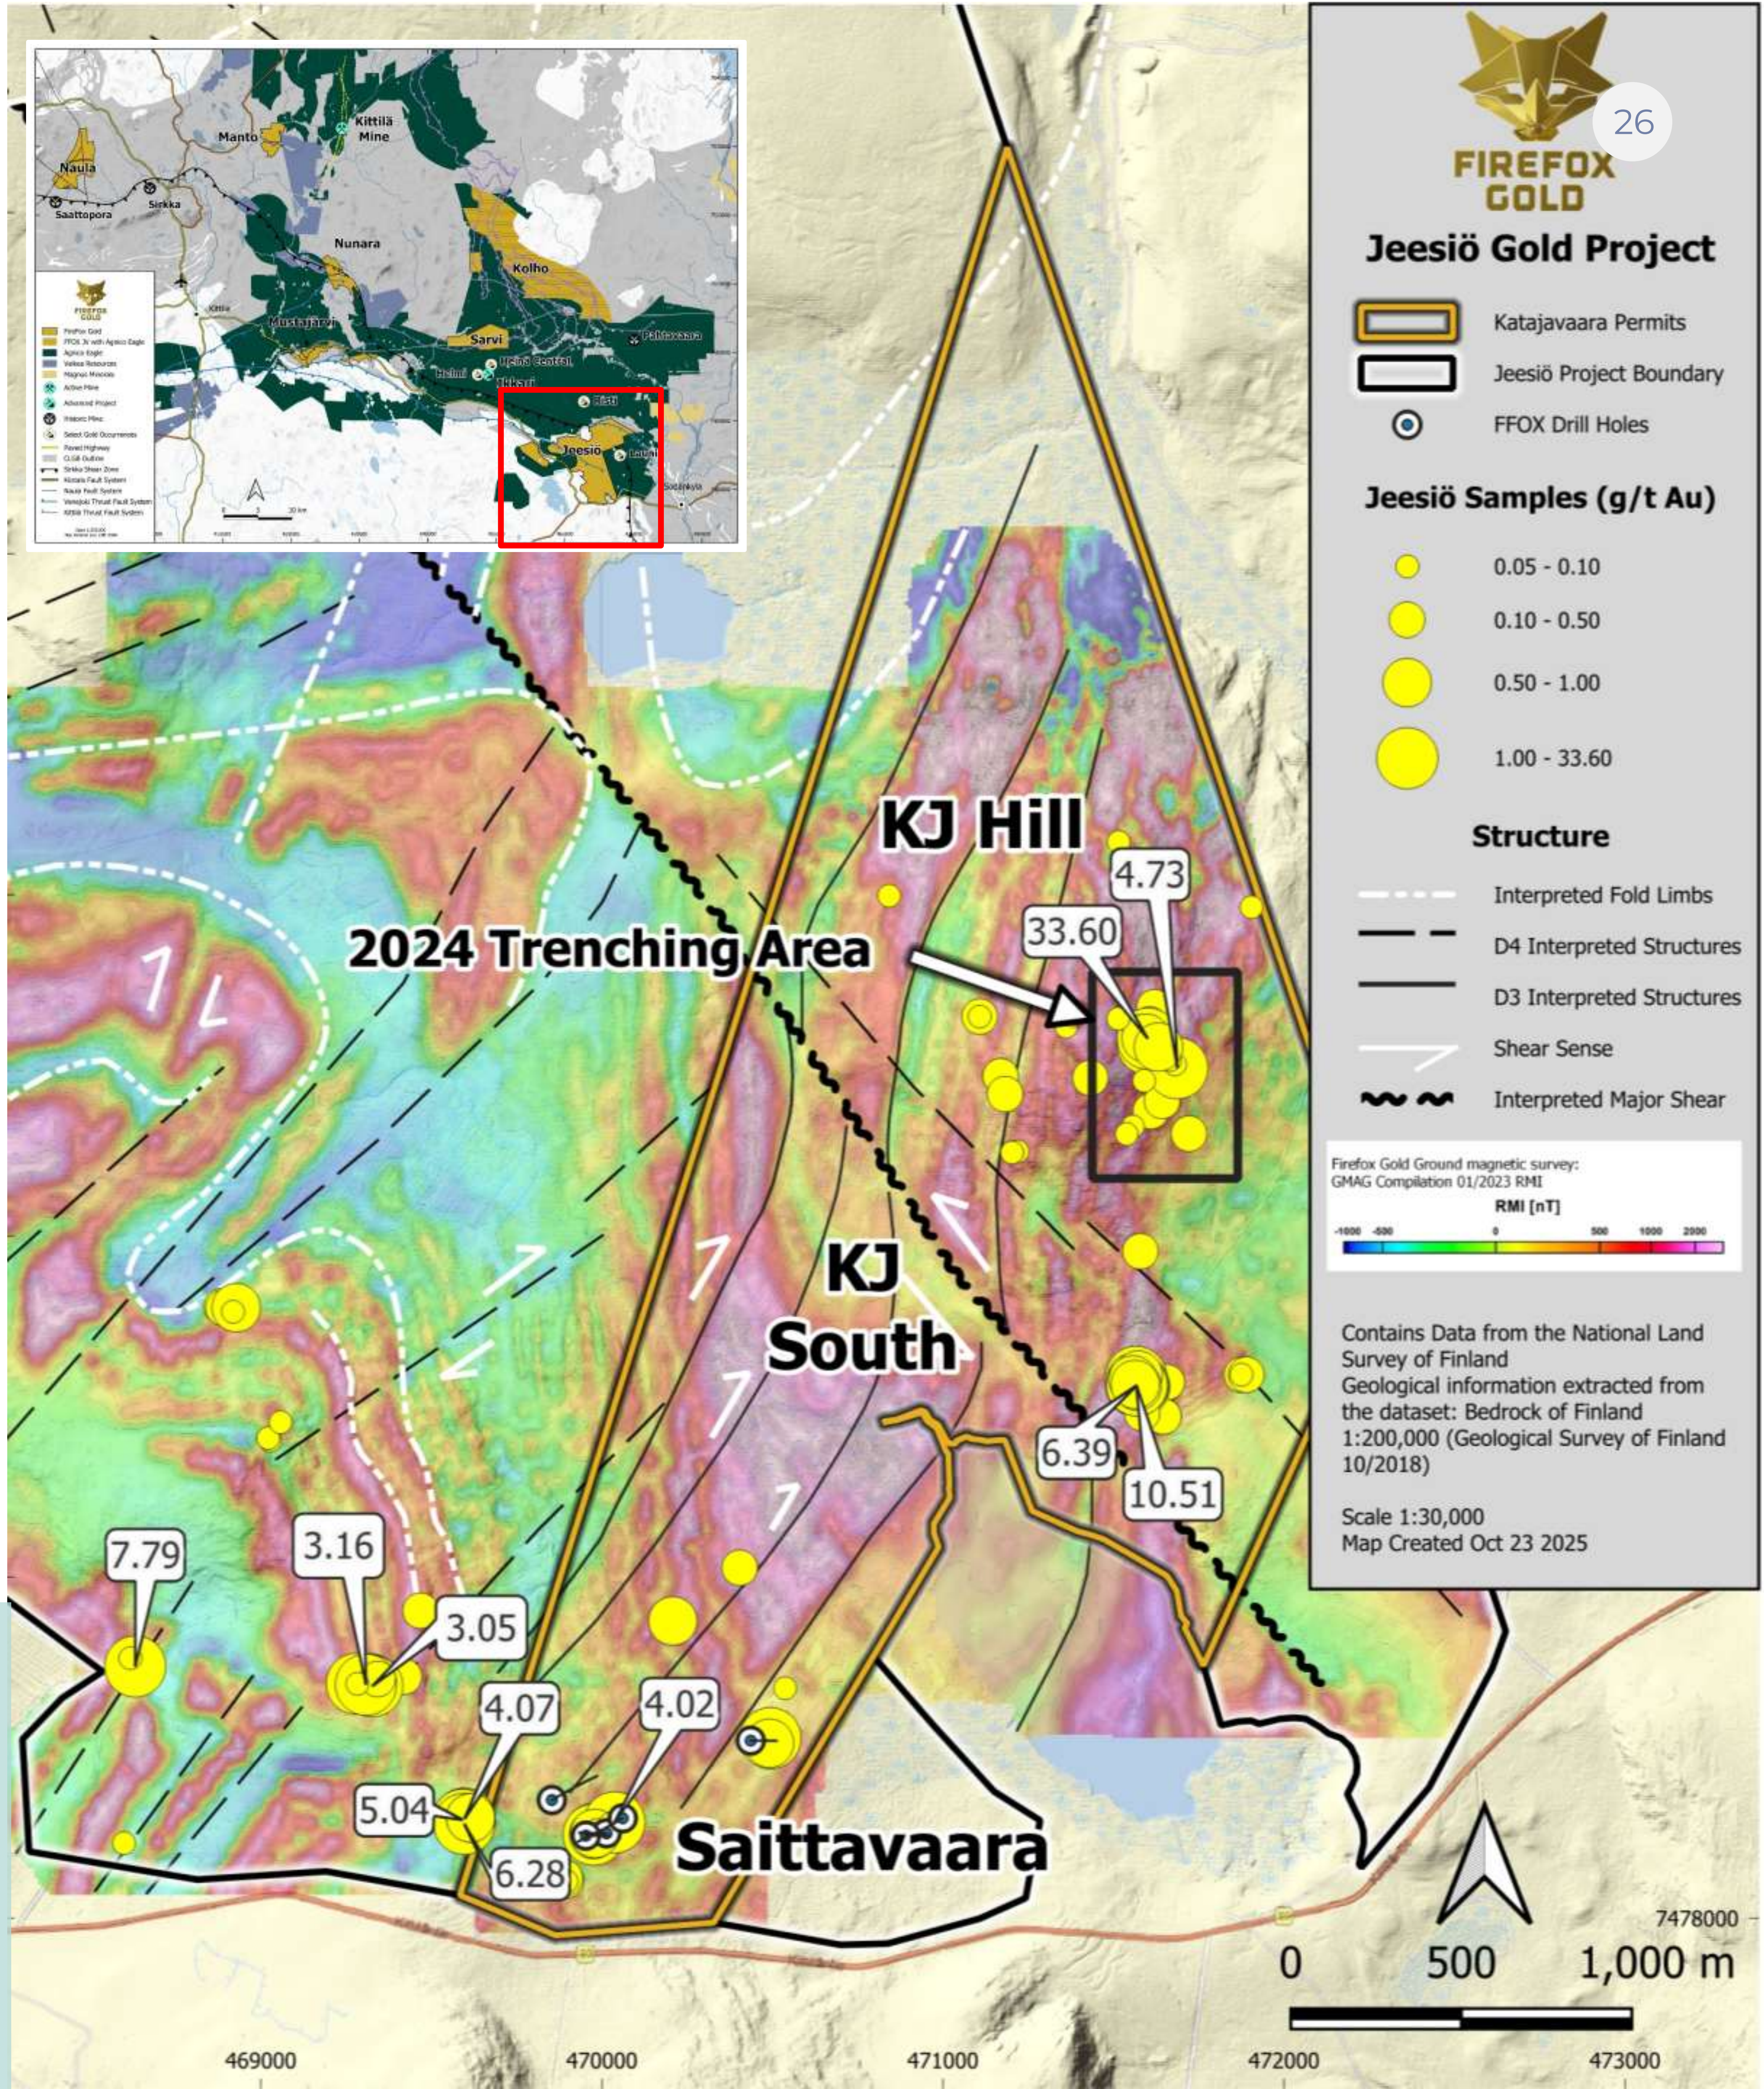
A complex structural setting hosts pervasive gold and FireFox has continually expanded targets since 2019:

» Mapping and & airborne geophysics via UAV plus hundreds of samples collected, including:
  - Outcropping quartz vein with **6.4 g/t Au**, plus **boulder samples of 10.5 g/t Au** at KJ South
  - **Grab sample of 33.6 g/t** Au and boulder sample of 4.7 g/t Au at KJ Hill
  - Trench channel samples **14.62 g/t gold over 2.84 metres**, 2.69 g/t gold over 3.38 metres and 1.85 g/t gold over 1.69 metres at KJ Hill in 2024

» Recon drilling targeted gold anomalies associated with quartz-sericite-pyrite alteration along D3 and D4 structures at Saittavaara
  - **First 2 drillholes encountered +3 g/t Au (21JE002: 4.0m @ 2.03 g/t Au, including 2.0m at 3.18 g/t Au)**

» 2024 surface sampling, mapping **expanded Saittavaara trend 800 metres northwest** with multiple +2 g/t Au samples collected

» **Big NW structure** cutting mag lows remains untested – more geophysics and BoT sampling planned.



A MAJOR PARTNER TO ADVANCE A MAJOR PROJECT

Kolho Property Optioned to Agnico Eagle

LAND PACKAGE: >120 km^2 , including 3 exploration permit & 3 permit applications, occupying a prospective structural corridor NE of Rupert Resources' Ikkari discovery & FireFox's Sarvi property

Optioned to Agnico Eagle, operator of the Kittilä mine, ~20km to the NW

EXPLORATION: Limited prior gold exploration included airborne mag surveying, reconnaissance mapping & sampling by FireFox

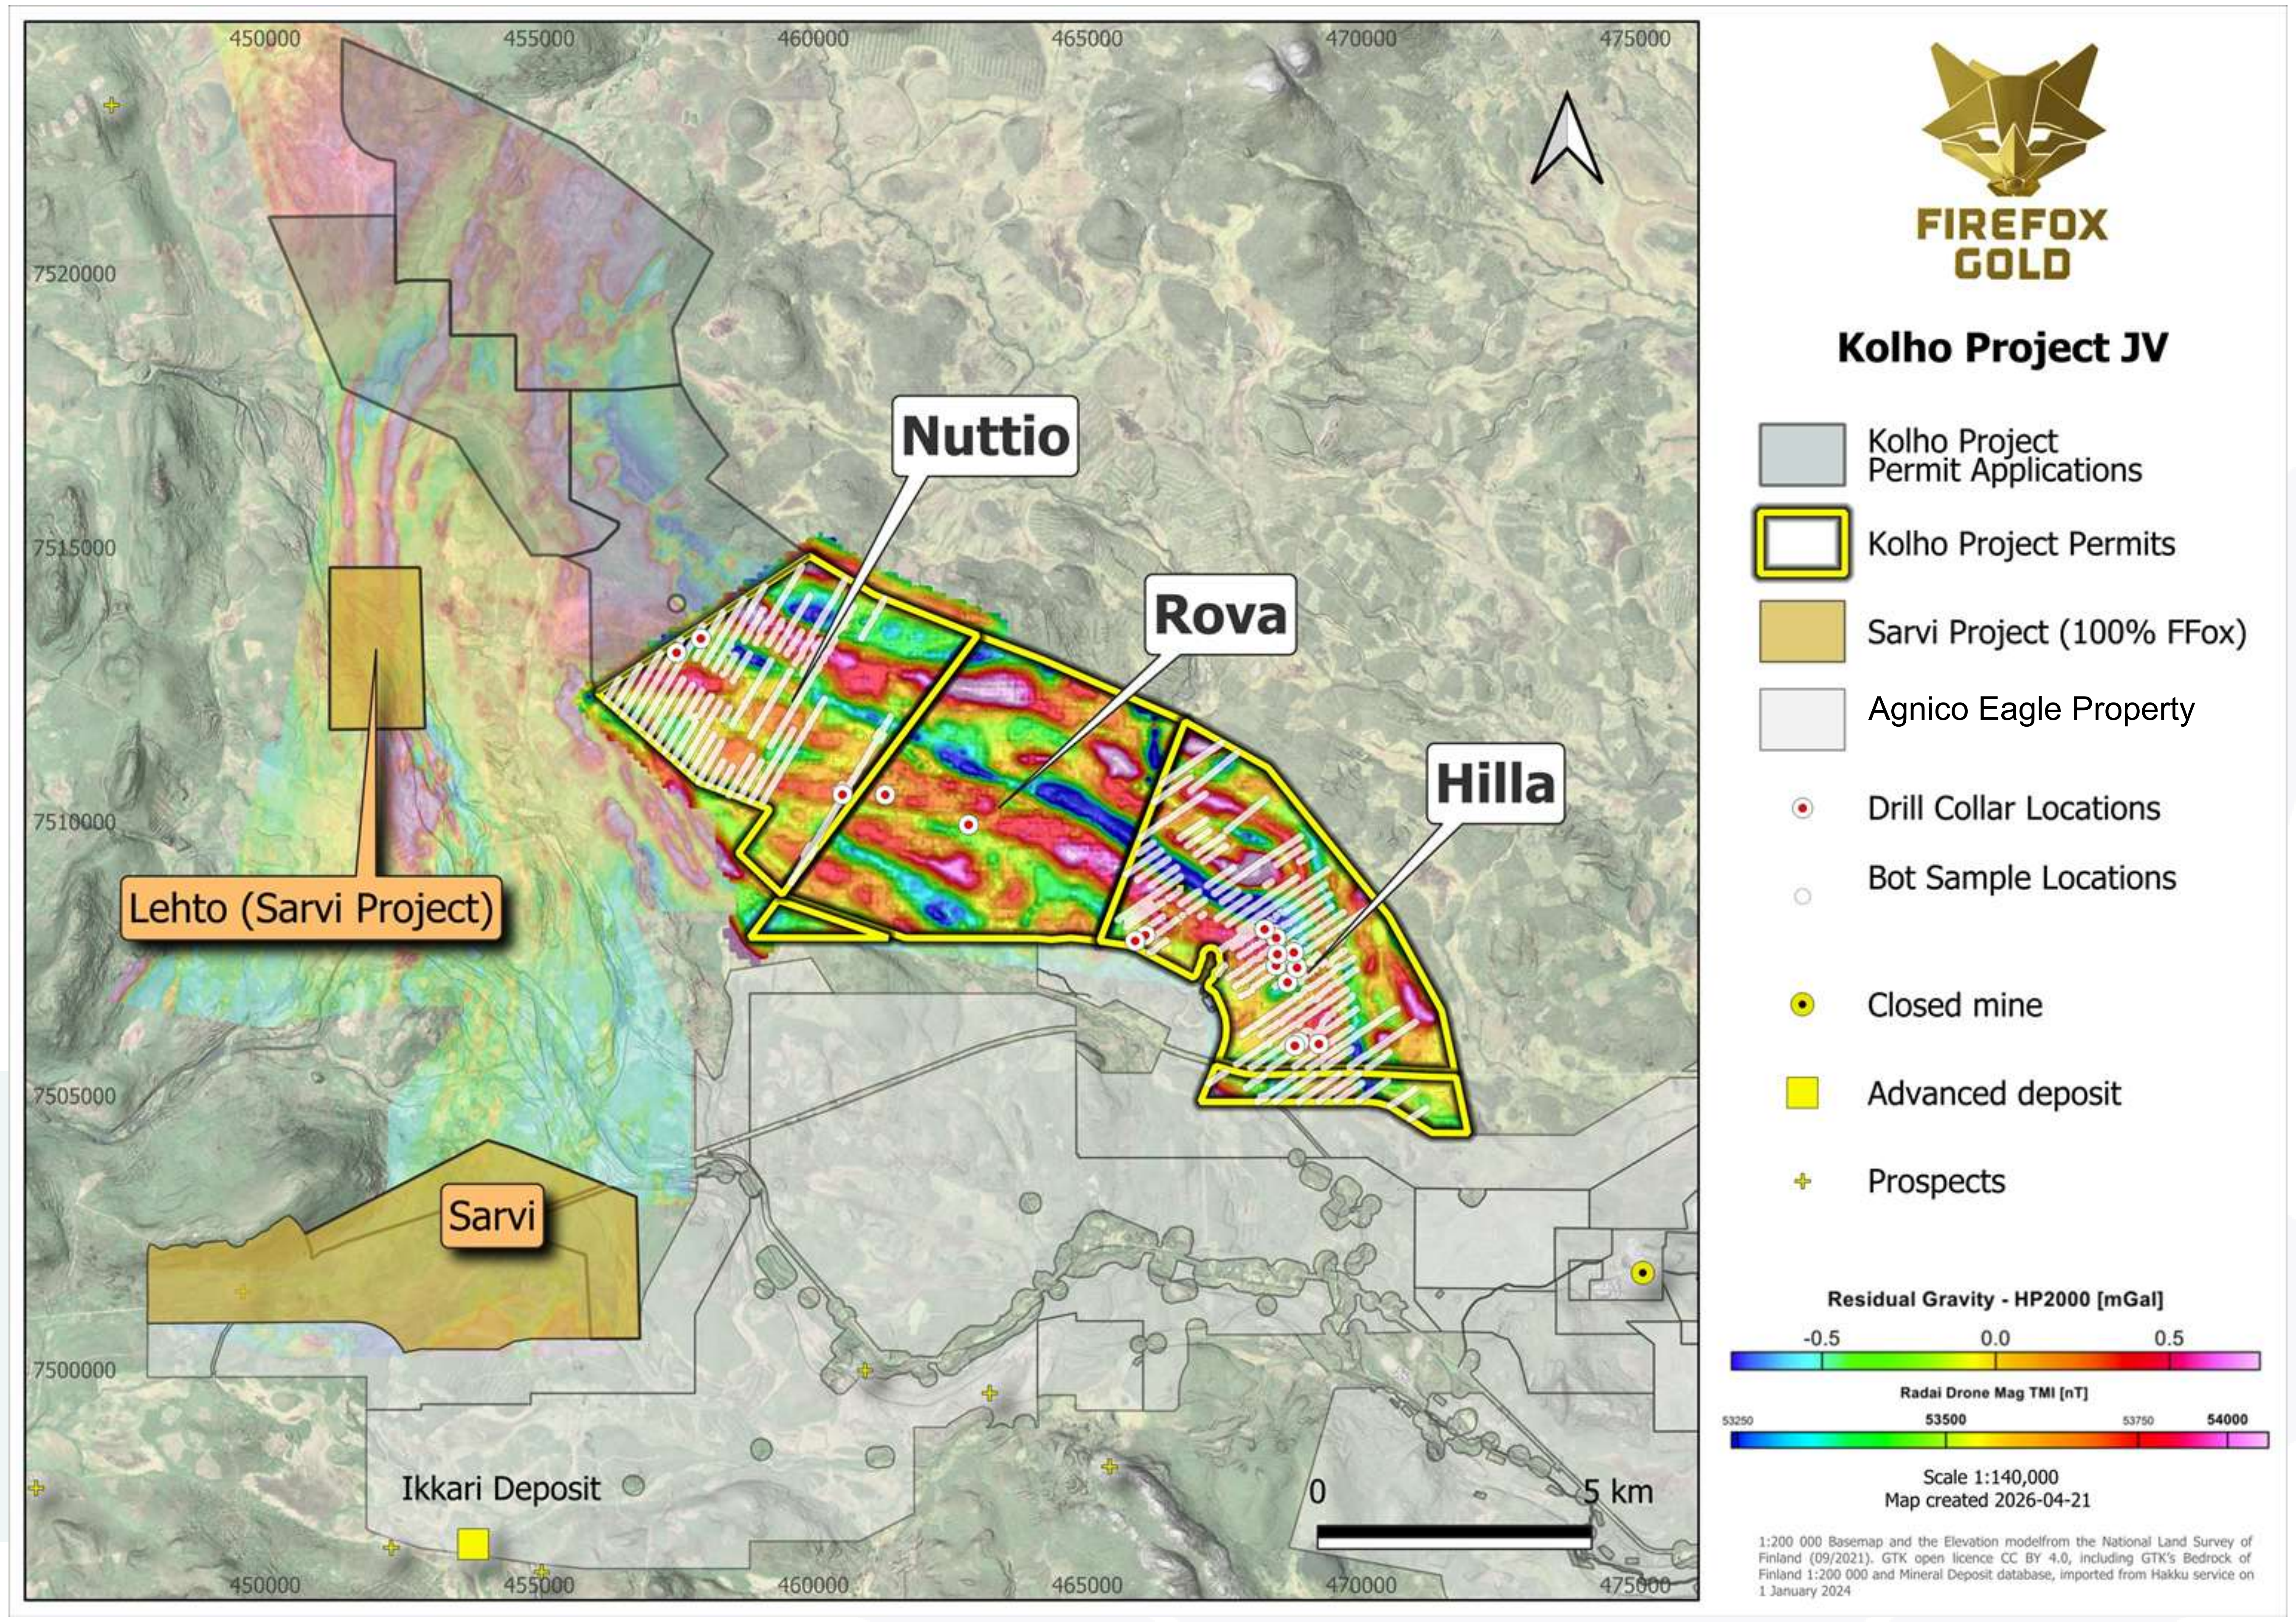
Agnico invested ~US$2.936M in exploration expenditures to end of 2025:

- Detailed gravity surveying and systematic BoT sampling to generate drill targets
- First drill programs commenced on 3 permits; >3,500m drilled to date

TERMS OF OPTION AGREEMENT*:

Agnico Eagle has a right to earn:

- 51% interest with US$5M in exploration expenditures by year 5
- An additional 24% interest with further investment of US$7.5M by year 8



* For full details of the Option Agreement terms refer to the original news release dated December 20, 2023 and subsequent FireFox filings

GOLD DISCOVERY IN FINLAND

Summary

A Growing Gold Belt in Lapland where FireFox is a major player in a terrain charged with discovery potential... exploring key lands with advanced targets.

> FOCUSED ON EXECUTION

Pre-resource drill program underway at Mustajärvi, new drilling at Sarvi, plus new target exploration at multiple projects

> LARGE 100% HELD PROPERTY POSITIONS

+ strategic investment by Agnico Eagle + additional JV opportunities in Lapland Greenstone Belt

> COMPELLING GROWTH POTENTIAL

Pre-discovery valuation with clear analogues for upside
